The chart labeled "Program Net Income" conveys a summary of all the programs and their related expenditures and revenue items. This breaks down the expenditure costs in to four separate categories, then subtracts the costs from the expected revenue to calculate a final net surplus or deficit related to the minor program. These costs are then summed and compared to the previous two budgetary expectations. In the second half of this chart, the data is rearranged to show the costs of each operating category, such as Personnel or Capital expenses, and how they relate to the programs. At the end of this chart is also a breakdown of percentages to convey the weight of each programs cost and staff time.

Program Net Income/Detail

This table serves as a general crosswalk from the line item budget to the new programmatic budget. It clearly establishes the cost of each program's expenditure side by side, in addition to the revenue generated with any associated program. At the bottom of this table there is also a breakdown of each programs weight in terms of total percentage of the budget.

The chart labeled "Program Net Income" conveys a summary of all the programs and their related expenditures and revenue items. This breaks down the expenditure costs in to four separate categories, then subtracts the costs from the expected revenue to calculate a final net surplus or deficit related to the minor program. These costs are then summed and compared to the previous two budgetary expectations. In the second half of this chart, the data is rearranged to show the costs of each operating category, such as Personnel or Capital expenses, and how they relate to the programs. At the end of this chart is also a breakdown of percentages to convey the weight of each programs cost and staff time.
