---

<sup>1</sup> See Section 166.041(4)(c), Florida Statutes.

1. Summary of the proposed ordinance (must include a statement of the public purpose, such as serving the public health, safety, morals and welfare):

**The proposed ordinance increases the amount of fines for two categories of non-criminal parking violations: parking in a fire lane or blocking a fire hydrant, and parking in a no parking zone. The public purpose of the ordinance is to provide for orderly traffic flow in and out of the Town for residents and businesses and to provide meaningful incentive to comply with the Town's parking regulations.**

2. An estimate of the direct economic impact of the proposed ordinance on private, for-profit businesses in the Town of Belleair, if any:

- (a) An estimate of direct compliance costs that businesses may reasonably incur;
- (b) Any new charge or fee imposed by the proposed ordinance or for which businesses will be financially responsible; and
- (c) An estimate of the Town of Belleair's regulatory costs, including estimated revenues from any new charges or fees to cover such costs.

**The ordinance proposes no direct economic impact to any private, for-profit businesses in the Town of Belleair or elsewhere.**

3. Good faith estimate of the number of businesses likely to be impacted by the proposed ordinance:

**None unless the Town's parking regulations are violated.**

4. Additional information the governing body deems useful (if any):

**The proposed ordinance will have no economic impact so long as motorists comply with the Town's parking regulations. The Town's fines for noncriminal traffic infractions have not increased in decades, and recent increases in traffic and parking caused by hurricanes in 2024 have demonstrated that the existing fines do not disincentive motorists from violating the Town's code. The proposed ordinance is an ordinance of general applicability that applies to all persons and businesses similarly situated**
