Hello

I Live on Garden circle and had stopped in regarding getting involved with a board, and was told to email a resume in. For the moment I wanted to shoot over my info as I don't keep a resume handy, as have been self employed as a contractor of homes and pools for the last decade or so.

I have a CBC license since 2015 in FL, and a CPC since 2014, completed over \$15MM in work since moving to FL in 2013, projects ranging from renovations to complete commercial ground up construction of a couple self storage facilities I own on Belcher, just south of Ulmerton. Renovated the old great bay beer distributor into a glass factory in 2018 as well at a cost of several million.

I'd like to get involved a bit more in the community and have extensive experience in both building and site planning work, and enjoy problem solving challenges.

I will look to put a more formal resume together when I have some time available, or can answer any questions via email or come in and meet with the relevant people as needed in meantime.

Thanks

Jordan Hidalgo
