Public Works Week Proclamation

Summary:

In observance of National Public Works Week, staff is seeking a proclamation to recognize all of the Town staff who work in the Public Works field.

Previous Commission Action: N/A

Background/Problem Discussion: N/A

Expenditure Challenges N/A

Financial Implications: N/A

Recommendation: Staff recommends proclaiming the week of May 20th through the 26th, 2018 as National Public Works Week.

Proposed Motion I move approval of proclaiming the week of May 20th through the 26th, 2018 as National Public Works Week.

NATIONAL PUBLIC WORKS WEEK

WHEREAS, public works services provided in our community are an integral part of our citizens' everyday lives; and

WHEREAS, the support of an understanding and informed citizenry is vital to the efficient operation of public works systems and programs such as water, sewers, streets, public buildings and solid waste collection; and

WHEREAS, the health, safety, and comfort of this community greatly depends on these facilities and services; and

WHEREAS, the quality and effectiveness of these facilities, as well as their planning, design and construction is vitally dependent upon the efforts and skill of public works officials; and

WHEREAS, the efficiency of the qualified and dedicated personnel, who staff public works departments, is materially influenced by the people's attitude and understanding of the importance of the work they perform; and

WHEREAS, this year's theme "The Power of Public Works" gives voice to the impact the many facets of public works have on modern civilization. From providing clean water to disposing of solid waste, to building roads and bridges or planning for and implementing mass transit, to maintaining roadways or devising emergency management strategies to meet natural or manmade disasters, public works services determine a society's quality of life; and

NOW, THEREFORE, I, GARY H. KATICA, Mayor of the TOWN OF BELLEAIR, FLORIDA, do hereby proclaim the week of May 20 through May 26, 2018 as

NATIONAL PUBLIC WORKS WEEK

and urge all citizens of our community to gain knowledge of and to maintain knowledge of and to maintain a progressive interest in and understanding of the importance of the issues involved in providing our public works; and

FURTHER, to recognize the contributions and efforts of the public works professionals who work tirelessly throughout the year each day to strengthen the bond that keeps us all connected.

*GIVEN under my hand and the Seal of
the TOWN OF BELLEAIR, FLORIDA,
this 1st day of MAY, A.D., 2018.*

Confirmation of Richard (Ricky) Allison as Director of the Public Works, Parks, and Recreation Departments.

Summary:

Section 3.05(a) of the town charter provides that the Town Manager shall appoint all department heads with the confirmation of the Commission. I have accepted Eric Wahlbeck's resignation letter with his last day being May 18th. With the departure of Mr. Wahlbeck, I am recommending Ricky for confirmation. If confirmed, Mr. Allison will assume the duties of Mr. Wahlbeck upon the successful negotiation of an employment contract. I believe Mr. Allison to be the best candidate for the position, based on his education, years of experience and leadership that he currently provides to the town. I have attached a copy of his resume.

Proposed Motion: I move approval of the confirmation of Ricky Allison as Director of the Public Works, Parks, and Recreation Departments.

Subject:

Request for Alternative Solicitation Method for Strategic Planning Consultant

Summary:

To hire a consultant to facilitate our strategic plan, staff is requesting to use a “Request for Qualifications” (RFQ) rather than a “Invitation to Bid” (ITB). Ordinance 2-229(f) provides that the commission may approve alternative solicitation methods where the use of the bid process is not practicable or advantageous.

Previous Commission Action: Over the past several months, the Commission has been discussing the hiring of a consultant to complete a strategic plan for the Town, and has also approved staff to begin searching for that consultant.

Background/Problem Discussion: An RFQ differs from an ITB in the process through which the winner is selected. Namely, ITBs require that the contract is awarded to the lowest bidder. However, selecting a winner for an RFQ is based on qualifications first, and then price is negotiated after applicants are ranked by a scoring matrix, typically performed by a committee.

Staff believes that using an RFQ for the Town’s strategic plan will allow the commission to select a candidate who’s qualifications and methodology are most advantageous to the town.

If the Commission grants the use of an RFQ, staff has estimated that work on the strategic plan would likely begin in July/August, after the Commission approves the selected contractor.

Expenditure Challenges N/A

Financial Implications: N/A

Recommendation: Staff recommends approval of the use of an RFQ for the Town's solicitation of a strategic plan.

Proposed Motion I move of approval of the use of a Request for Qualifications process for the Town's solicitation of a strategic planning consultant.

Summary

To: Mayor, Gary H. Katica and Commissioners
From: JP Murphy
Date: 4/27/2018

Subject:

Consideration of Purchase of Grapple Truck.

Summary:

Staff is requesting approval of a Peterson Lightning Loader Grapple Body mounted to a Hino 338 Body in the amount of \$135,853. Both the chassis and body are being purchased through the Florida Sheriff's Association contract. The chassis is the same chassis and cab as our rear-load packers and the Solid Waste Department is recommending the lighting loader grapple body, due to enhanced safety features and driver aids. The quote and brochure are attached.

Previous Commission Action: The Commission previously budgeted for the grapple truck's replacement.

Expenditure Challenges: The Solid Waste Department did not purchase the appropriated truck last year, so the funds rolled over into reserve. If approved, the funds will be appropriated on the next available budget amendment.

Financial Implications: \$135,583.00

Recommendation: I recommend approval

Proposed Motion: I move approval of the purchase of the grapple truck from Rush Truck Center in the amount of \$135,853.

WE BUILD LEGENDS.

TL-3 LIGHTNING LOADER®

PETERSENIND.COM | 800.930.LOAD (5623)

LIGHTNING LOADER® AN AMERICAN LEGEND

The Lightning Loader® is the most envied, most desired, and most imitated grapple truck in the industry. We manufacture 95% of each unit in-house to guarantee quality. Each Lightning Loader® is built to provide maximum strength, durability, and reliability, so you can get the job done fast and free of headaches.

BUILT BY THE BEST

At Petersen Industries, we're serious about being "Made in America." We've lived and breathed knucklebooms for over 60 years, in Lake Wales, Florida. When it was time to build a new facility, we moved down the street – not overseas.

From buckets to cylinders, we manufacture and install 95% of all components in-house. We're proud of our product and the people who build it. Your Petersen Industries Lightning Loader® is built by highly trained American workers, with quality American parts.

PI TL-3 LIGHTNING LOADER®

American born. American made. Efficient, dependable one-man operations for secure solid waste removal. Revolutionizing grapple trucks since 1957 and home to the original, industry-defining Lightning Loader®.

BOOM-UP ALARM

Notifies the operator when the boom is over legal travel height with an audible buzzer and red light. The boom-up alarm has been a standard safety feature on our equipment for over a decade.

MINIMAL HOSE EXPOSURE

Slack hoses can snag on debris and obstructions. That's why we designed our "enclosed hose recoil system" and a bucket with no hoses below the rotator.

SINGLE CYLINDER BUCKET

A large cylinder and manifold block keep hoses out of work areas, allows for a stronger bite force, and ensures that both sides always work together.

SCISSOR HOIST

The most stable hoist available for this application. Lifts 23 tons and is power up and down.

GREASELESS PROPORTIONAL CONTROLS

Whether you choose our standard lever controls or our patented QUADSTICK® (shown on back); know that they are the most durable & easiest to operate.

H-STYLE OUTRIGGERS

Horizontal and vertical outriggers act independently of each other. Allows the operator to custom place around obstructions and traffic patterns.

WHEELBASE

We specifically design our units to have the best turning radius and keep a comfortable operator platform.

HEAD & PEDESTAL ASSEMBLY

Our Head design is unique for the industry. We started with the kingpost and rotator design 50 years ago and have stuck with it because of: *reliability, ease of maintenance, and simplicity.*

HEAD

This heavy duty piece of American ingenuity is stress relieved prior to installation.

LOCK-COLLAR

Simply and effectively prevents vertical movement of the king post.

TORQUE ARM

The torque arm allows the gearbox to float laterally, which helps to reduce stresses to the pedestal caused from dynamic forces from boom rotation. Without a torque arm the pedestal would be subjected to higher levels of stress caused by the rotational forces from sudden starts or stops from boom rotation.

EASY MAINTENANCE

We use Nylatron bushings in the bearing housing and a sealed planetary gearbox to reduce maintenance time.
