APPROVAL OF MINUTES

Previously approved meeting minutes were discussed; minutes of the July 16, 2018 meeting were not discussed/approved.

Motion made by Mr. Prevas to approve the minutes of the May 24 and June 28 meeting minutes; seconded by Mr. Hartshorne. Carried unanimously. (ref #18-0177)

18-0227 Approval of July 16, 2018 and August 16, 2018 Meeting Minutes

GENERAL AGENDA

18-0225 Discussion of FY 2018-19 Annual Budget

Ashley Bernal-Management Analyst-Provided a very high level review of the proposed

2018-2019 budget; discussed expenditures and revenues; provided a breakdown of various departments.

Discussion ensued regarding funding from FEMA for Irma; Mr. Murphy stated that it was an ongoing process; expects another 8 months or so before receiving any funding from FEMA; provided a breakdown of support services.

Chairman Olson requested summary document of the budget; Mr. Murphy stated that staff could provide a one page budget to be provided to the public.

Mr. Murphy also discussed process of going from a line item budget to a program budget.

Discussion ensued regarding capital improvement funds; capital equipment; regarding reserves; the police department and the pension fund/plan.

Chairman Olson stated for the record that the finance board was desirous of reviewing the report staff was in the process of creating regarding reformation of the police department.

Ms. Bernal continued to review the various departments and programs for the FY 2018-2019 budget.

Discussion ensued regarding the solid waste fund balance; capital equipment fund.

Mr. Murphy spoke about water and solid waste funds; well rehab; capital improvement fund; capital projects; roadway projects; cooperative funding.

Discussion ensued regarding the recreation department programs; special events costs; demographics of town; allowing outside participants.

Chairman Olson stated the board was required to approve the budget and the mill rate of 6.500 and to recommend to the Town Commission its approval.

Chairman Olson stated that the motion before the board was to approve the budget and the mil rate of 6.500 and recommend to the Town Commission its approval.

Mary Griffith moved to approve the budget. Motion seconded by Dan Hartshorne.

- Aye: 6 Chairman Olson, Vice Chairman Hartshorne, Prevas, Griffith, Hail, and Ingersoll
- Absent: 1 Piccarreto

OTHER BUSINESS

None to be heard

COMMISSION ADVISOR REPORT

Deputy Mayor Rettstatt stated that the Town Commission had been working on the budget and fine tuning it; spoke about the biding of the two parks on Rosery Road; the Town will be doing some of the work to save money to finish the two parks; grand opening will be on October 12th; spoke about the Veterans Day event.

Discussion ensued regarding review process for large projects; having an engineering consultant for projects.

Chairman Olson thanked staff for their continued extraordinary efforts over the past year with the budgeting process.

ADJOURNMENT

No further business; meeting adjorned in due form at 5:05 PM.

APPROVED:

Summary

To: Finance Board From: Stefan Massol, Director of Support Services Date: 11/15/2018

Subject:

Discussion of Comprehensive Annual Financial Report for Fiscal Year ended 2017

Summary:

Town staff presents the audited financial statements for Fiscal Year ended September 30, 2017. **Previous Commission Action:** None.

Background/Problem Discussion: Each year the town compiles financial information into what is known as Comprehensive Annual Financial Report. The Financial Section, which is majority of the report, includes an Independent Auditor's Report, Management Discussion and Analysis, the Basic Financial Statements, and other Required Supplementary Information.

The external auditing firm Davidson, Jamieson and Cristini, P.L. performed this year's annual audit. During their audit they did not identify any deficiencies in internal control considered to be material weaknesses, and that the Town complied, in all material respects, with required standards.

Financial Implications: As of the close of the fiscal year the town held a net position of \$38,981,115 overall. This includes \$32,807,478 for governmental activities and \$6,173,637 for business-type activities. Overall the net position increased by \$1,868,007 over the prior fiscal year, due in part to the completion of multiple capital projects, grant proceeds, as well as proceeds from sale of the Belleview Biltmore Golf Club. For a detailed discussion of the financials and underlying factors the Management Discussion & Analysis section is provided beginning on page 4 of the report.

LETTER OF TRANSMITTAL

TOWN OF BELLEAIR

N: GARY H. KATICA IISSIONERS: KARLA RETTSTATT MICHAEL WILKINSON TOM SHELLY TOM KUREY

JP MURPHY

INC. 1925

901 PONCE DE LEON BOULEVARD BELLEAIR, FLORIDA 33756-1096 PHONE (727) 588-3769 WWW.TOWNOFBELLEAIR.COM

September 13, 2018

To the Honorable Mayor, Town Commission, and Citizens of the Town of Belleair, Florida

State law requires that all general-purpose local governments publish within one year of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP) and audited in accordance with generally accepted, in the United States of America, auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Town of Belleair, Florida for the fiscal year ended September 30, 2017.

The Comprehensive Annual Financial Report (CAFR) is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, a copy of the Town's Certificate of Achievement for Excellence in Financial Reporting, and the primary government's organization chart. This CAFR includes all funds of the Town. The Town has no component units. The financial section includes the management's discussion and analysis (MD&A), the basic financial statements for the primary government, and the primary government's combining and individual financial statements and schedules, as well as the independent auditor's report on the financial statements and schedules. GAAP requires that management provides a narrative introduction, overview, and analysis to accompany the basic financial statements. It should be read in conjunction, overview, and analysis of the Town's financial statements. It should be read in conjunction with this letter of transmittal. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. In contrast to the financial section information, the statistical section information has not been audited.

This report consists of management's representations concerning the finances of the Town of Belleair, Florida. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the Town of Belleair, Florida has established a

comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the presentation of the Town of Belleair, Florida's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Town of Belleair, Florida's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Town of Belleair, Florida's financial statements have been audited by Davidson, Jamieson & Cristini, P.L., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the Town of Belleair, Florida for the fiscal year ended September 30, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Town of Belleair, Florida's financial statements for the fiscal year ended September 30, 2017, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

Profile of the Government

The Town of Belleair, Florida was incorporated in 1925 and was chartered under Chapter 10335, Special Laws of Florida, with a Mayor form of government. The Town of Belleair, Florida currently occupies a land area of 2.5 square miles and serves a population of 4,088 according to the U.S. Census Bureau. The Town of Belleair, Florida is empowered to levy a property tax on both real and personal properties located within its boundaries.

The Town of Belleair's charter was changed in 1973 to provide for a council-manager type of government, and in 1997, due in part to additional provisions in the charter which strengthened the authority of the town manager, was officially recognized as a council-manager form of government by the International City/County Managers Association. Policy-making and legislative authority are vested in a governing commission consisting of the mayor and four other members. The Town Commission is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring both the government's manager and attorney. The town manager is responsible for carrying out the policies and ordinances of the Town Commission, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments. The commission is elected on a non-partisan basis. Commission members serve three-year staggered terms, with two commissioner members elected every three years. The mayor is elected to serve a three-year term. The mayor and commission members are elected at large.

The Town of Belleair, Florida provides a full range of services, including fire & rescue; police protection; the construction and maintenance of streets and other infrastructure; and recreational activities and cultural events. The Town of Belleair, Florida also provides water and solid waste services. These departments are enterprise funds and are included in this report.

In May, budget requests are submitted to the town manager. The town manager uses these requests as the starting point for developing a proposed budget. The town manager then presents this proposed budget to the commission for review before July 31st. The commission is required to hold public hearings on the proposed budget and to adopt a final budget by no later than September 30, the close of the Town of Belleair, Florida's fiscal year. The appropriated budget is prepared by fund (e.g., general), and department (e.g., recreation). Department heads may request transfers of appropriations within a department. Transfers of appropriations between departments, however, require the special approval of the Town Commission. Budget-to-actual comparisons are provided in this report for each governmental fund for which an appropriated annual budget has been adopted. For the General Fund, this comparison is presented on page 21 as part of the basic financial statements for the governmental funds. There are no budget-to-actual fund subsection are project-length budget-to-actual comparisons for each governmental funds. There are no budget-to-actual fund subsection are project-length budget-to-actual comparisons for each governmental fund for which a project length budget has been adopted (i.e., the capital projects funds).

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the Town of Belleair, Florida operates.

Local economy. The Town is mostly a residential community with three 18-hole golf courses. However, the region has a varied manufacturing and industrial base. Major industries with headquarters or divisions located within the government's boundaries or near include; computer hardware, software manufacturers, electrical controls, several financial and insurance institutions. The unemployment rate in Belleair is currently 3.9 percent, which is .2 percent lower than the national average. The median household income in Belleair is \$84,205 as compared to \$59,039 nationwide. The Town of Belleair, Florida currently has a challenging economic environment, but local indicators point to a slight upward fluctuation in the real estate market. This has had a positive impact on building permit revenues which have risen substantially from \$382,371.42 in 2015-16, to \$526281.28 in 2016-17.

The Belleview Biltmore hotel is being redeveloped, after many years of complete closure. The hotel property owner plans to build condominiums, townhomes, and a small hotel from the original structure on the site. Preliminary estimates indicate a \$400,000 annual increase in General Fund revenues once the new development is fully operational. Demolition of the hotel property has completed, and construction is expected to be continue in different stages for approximately three to five years.

At the end of 2012 John J. Osborne, a long-time resident of Belleair, passed away and left a bequest of over \$3.4 million to the town. His generous donation has measurably improved the net position of the Town of Belleair and to show respect for this great contribution the town dedicated the Public Works building to his memory.

In February 2013, the town acquired the Belleview Biltmore Golf Club to preserve green space in Belleair and to prevent future development on the golf course property. The club was sold to Pelican Golf, LLC on June 1, 2017 and the buyer is constructing significant improvements that are expected to have a positive effect on the valuation of the property.

The region (which includes the Town of Belleair, Florida and the surrounding unincorporated area within the same county) has a population base of approximately one million people, with three surrounding counties playing a vital role in the region's economy. The town serves as a premium residential community for nearby areas in the Tampa Bay region.

Long-term financial planning. The Town of Belleair, Florida has long-range plans for infrastructure improvements (streets, drainage, and water system). The town's long-range financial plan has several roadways and drainage improvements scheduled throughout Belleair over the next five years. In recent years the town completed roadway and drainage projects along Manatee Rd., Eagle's Nest, Druid Rd., and Althea Rd. The Bayview Dr. project was completed this year, and the Rosery Road project is nearing completion. The Town has secured matching grant funding from the Southwest Florida Water Management District for the Bayview Dr., Manatee Rd., Rosery Rd. and Pinellas Rd. projects. Stormwater projects are prioritized on a west to east basis as much of the town's stormwater flows towards the west and eventually into the intracoastal waterway. As a policy, staff continually seeks cooperative funding opportunities, and sometimes defers projects to ensure their eligibility for cooperative funding. The Rosery Road project is one such project.

As of the 2016-17 fiscal year, the town has several revenue streams dedicated to capital improvements, including a stormwater fee, a municipal public services tax on electricity, the "Penny for Pinellas" discretionary sales surtax and a dedicated millage levy. These revenues are dedicated to funding the \$710,000 annual debt service on a \$10 million dollar bank note and continue to place money in capital reserve for future projects. Several of the town's advisory boards have taken up different measures to study methods in which the debt can be refinanced to provide additional funding for future projects. The Belleview Biltmore Golf Club was sold June 2017 with \$3,400,000 dollars transferred to the Capital Projects Fund.

The Water Fund has benefited from a new, more sustainable rate structure that has stopped the recurring net loss from recent years. Furthermore, this increase will enable the department to fund capital improvements in the treatment and distribution system. However, for this model to be sustainable, consistent rate increases, commensurate with controlled rise in expenses will be required. Water infrastructure was included in the Druid Rd., Bayview Dr., Althea Rd., Manatee Rd., S. Pine/Eagle's Nest, Ponce de Leon/Indian Rocks Rd. intersection improvements and Rosery Rd. projects. Many of the distribution system improvements are scheduled to coincide with the street improvements thus increasing efficiency and reducing cost.

Additionally, staff will continue to seek the best long-term solution to the town's slowly deteriorating water supply. It is estimated that in five to ten years the salinity levels in the water sources will reach a level that cannot be treated using the current methodology. Several options exist including retrofitting a reverse osmosis system, purchasing water from a neighboring entity or providing for a system sale. Town staff and engineers will continue studying this issue to ensure that residents continue to receive excellent service at a reasonable cost.

Relevant financial policies. The town implemented Governmental Accounting Standards Board (GASB) Statement No. 45 "Accounting and Financial Reporting by Employers for Postemployment Benefits (OPEB) Other Than Pensions" for its governmental activities and proprietary fund types. This statement establishes standards for the measurement, recognition and display of OPEB expense/expenditures and related liabilities (assets), note disclosures and if applicable, required supplementary information (RSI) in the financial reports of state and local governmental employers. The town finances the OPEB benefits on a pay-as-you-go basis but recognizes the cost of the benefits in the period when the employee's service is being received by the town. At the time of this transmittal, the town had three general retirees receiving OPEB benefits.

The Town of Belleair, Florida sponsors defined benefit pension plans for its public safety (sworn police officers) employees as is provided for under chapters 185 of state statute. Each year, an independent actuary engaged by the pension plan calculates the amount of the annual contribution that the Town of Belleair, Florida must make to the pension plan to ensure that the plan will be able to fully meet its obligations to retired employees on a timely basis. As a matter of policy, the Town of Belleair, Florida fully funds each year's annual required contribution to the pension plan as determined by the actuary.

This is the first year of implementation for GASB Statement No.74, 78, and 82. These statements, in addition to GASB 67, 68, 71, and 72 impact the reporting of the town's pension plan by establishing standards on how the actuarial valuation date may be set with respect to the measurement date and how the net pension liability and pension expense will be calculated.

The Town of Belleair, Florida also provides a money purchase defined contribution retirement benefit for its non-public safety employees. This benefit is provided through the International City/County Managers Association Retirement Corporation. If the employee elects to contribute at least three percent (3%) to the plan, the town will contribute nine percent (9%). The Town of Belleair, Florida has no obligation in connection with employee benefits offered through this plan beyond its contribution to the employees' plan.

In addition to the implementation of GASB Statement No. 45, the Town has adopted GASB Statement No. 54 regarding *"Fund Balance Reporting and Governmental Fund Type Definitions"*. The objective of this Statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently

applied and by clarifying the existing governmental fund type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The initial distinction that is made in reporting fund balance information is identifying amounts that are considered *nonspendable*, such as fund balance associated with inventories. This statement also provides for additional classification as *restricted, committed, assigned,* and *unassigned* based on the relative strength of the constraints that control how specific amounts can be spent. The first financial statements reflecting these changes occur during the Annual Financial Audit for the fiscal year 2010-2011.

This year the town has also implemented GASB Statement No. 77 and 80. GASB 77 requires information about revenues that governments forgo to improve understanding of financial position and economic condition, inter-period equity, sources and uses of financial resources, and compliance with finance-related legal or contractual requirements. GASB 80 revises the standards of diversity in practice with some component units regarding how certain component units should be presented in the financial statements of the primary government.

Annually, the town establishes conservative estimates of ongoing revenues and expenditures. The town's revenue estimates are developed on historical trends, local economic projections and reasonable assumptions of future conditions. The town maintains, as permitted by State law, a diverse revenue base to mitigate the effects of short-term fluctuations in any one (1) revenue.

In conjunction with its review of its revenues, the town calculates the full direct cost of activities supported by user fees and considers such information while establishing user fees and other charges for service. Similarly, the town's expenditures are estimated based on the prior year's expense while considering potential increases as well as efficient decreases. The town is legally mandated to have a balanced budget in all funds.

In accordance with fiscal policy, the town's fund balance currently maintains a minimum unreserved, undesignated (or unobligated) fund balance for the General Fund of thirty-six percent of annual operating expenditures. At the close of 2016-17 unassigned fund balance was thirty-five percent of operating expenditures. To the extent that unreserved, undesignated fund balance exceeds twenty percent, the town may draw upon the fund balance to provide funding for capital projects or provide funding for nonrecurring expenses.

In two of the proprietary funds (solid waste, and wastewater funds) the budgeted unreserved, undesignated, cash reserve is set at \$250,000. In the Water Fund cash reserve is set at \$450,000. In recent years the Water Fund was below the mandatory minimum fund balance, which was addressed by implementing a new water rate structure in October 2013. The Water Fund improved from an unrestricted fund balance of \$189,713 in 2013-14, to \$389,055 in 2014-15 and most recently \$1,255,698 in 2016-17. This was achieved through transfers in the form of capital contributions related to water infrastructure installed in new roadway projects.

Risk management. By being a member of the Public Risk Management (PRM) pool, the town has been able to contain its costs by spreading the risk amongst all other members of the pool; increases or decreases are resultant as a function of a deviation factor for losses of the pool. Annually, the town evaluates its risk in a variety of areas including workers' compensation and potential natural disasters. The town in collaboration with the PRM staff continues to conduct risk assessments and subsequently implement any changes as they relate to workplace safety. The town has won numerous safety awards for its safety program which includes a safety committee that reviews all accidents and occupational hazards. Recent Florida Supreme Court decisions regarding worker's compensation and attorney's fees have led to the insurance market responding with double-digit increases to workers compensation premiums. This raises the likelihood of cost increases for the town and the pool as a whole.

Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Town of Belleair, Florida for its comprehensive annual financial report (CAFR) for the fiscal year ended September 30, 2016. This was the twenty-third consecutive year that the town had received this prestigious award. To be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the Support Services and Administration departments. The Support Services Department works very hard to maintain strong internal controls to provide accurate financial reporting, to keep the public informed and to assist the Town Commission in decision-making. We would like to express our appreciation to all members of the departments who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor and the Commission for their unfailing support for maintaining the highest standards of professionalism in the management of the Town of Belleair, Florida's finances.

Respectfully submitted,

tof March

Finance Director

Town Manager

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Town Commission Town of Belleair, Florida

We have audited the accompanying financial statements of the governmental activities, the businesstype activities, each major fund, the budgetary comparisons for the general fund, and the aggregate remaining fund information of Town of Belleair, Florida (Town), as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the AICPA Professional Standards, AT Sections 601.55 and 601.56. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error, in making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

The Honorable Mayor and Town Commission Town of Belleair, Florida

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Belleair, Florida as of September 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statement, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Honorable Mayor and Town Commission Town of Belleair, Florida

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Belleair, Florida's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or any assurance on them.

Other Reporting Required by Governmental Auditing Standards

In accordance with *Government Accounting Standards*, we have also issued our report dated September 1, 2018, on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town's internal control over financial reporting and compliance.

Davidson, Jamieson & Crustine, G.L.

September 1, 2018

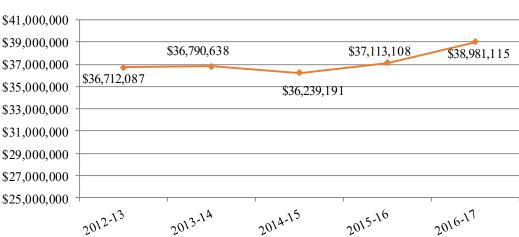

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis

This narrative overview and analysis of the Town of Belleair's financial statements for the fiscal year-ended September 30, 2017, provides readers with a comprehensive picture of the town's fiscal health, and its financial administration. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found starting on page vi of this report.

Financial Highlights

The assets of the Town of Belleair, Florida exceeded its liabilities at the close of the most recent fiscal year by \$38,981,115 (net position). Of this amount, \$3,965,938 (*Unrestricted*) may be used to meet the government's ongoing obligations to citizens and creditors. The government's total net position increased by \$1,868,007.

Total Net Position Government-Wide

The net position of the Town of Belleair has increased gradually, on average, since FY 2012-13. Since that time there have been relatively moderate changes in net position, increasing a cumulative 6% from the end of FY 2012-13 thru the end of FY 2016-17. Several factors have had considerable impact on the net position of Belleair these past five years, including the following:

- 1) The bequest of \$3.4 M by John J. Osborne to the Town of Belleair in 2012-13,
- 2) The acquisition of the Belleview Biltmore Golf Club by the Town of Belleair, in 2012-13 as well as sale of the property in 2016-17,
- 3) Completion of a new Public Works Building, named in honor of John J. Osborne in 2013,
- 4) Continuance of the Capital Improvement Plan to repair roads, curbs and utility structures throughout the town,
- 5) Cooperative grant funding provided by the Southwest Florida Water Management District for various water and drainage basin projects,
- 6) Donations in excess of \$300,000 from the Belleair Community Foundation for the construction of Hunter Memorial Park.

As of the close of the current fiscal year, the Town of Belleair, Florida's General (governmental) Fund reported an actual ending fund balance of \$2,128,674, an increase of \$ 891,668 in comparison with the beginning fund balance. The increase is due in large part to transfer of fund balance from the Golf Fund, following the sale of the property, to the General Fund. Of the \$4,848,365 transferred from the Golf Fund, the majority of the fund balance in the amount of \$3,960,615 was transferred to the Capital Projects Fund. \$887,750 was transferred to the General Fund.

Overview of Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town of Belleair, Florida's basic financial statements. The Town of Belleair's basic financial statements consist of three elements: 1) Government-wide financial statements; 2) Fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Town of Belleair's finances, in a manner similar to what one may observe for a private-sector business.

The statement of net position presents information on all of the Town of Belleair's assets, deferred outflows, liabilities and deferred inflows. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town of Belleair is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the Town of Belleair that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a signification portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the Town of Belleair include general government, public safety, transportation, and culture and recreation. The business-type activities of the Town of Belleair include water and Solid Waste Funds. A third business-type activity (wastewater) was sold to Pinellas County in 2004 though the town still manages billing operations for wastewater services.

The Water and Solid Waste Funds, although business-type funds, function as departments of the Town of Belleair, and, therefore, have been included as an integral part of the primary government.

The government-wide financial statements can be found beginning on page eighteen of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town of Belleair, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town of Belleair can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. The town uses *Governmental funds* to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town of Belleair maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Capital Projects Fund, and Golf Fund, all of which are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report. The Golf Fund was closed as of September 30, 2017.

The town adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found beginning on page twenty of this report.

Proprietary funds. The town maintains one kind of proprietary fund, *enterprise funds*, which are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The town uses enterprise funds to account for its Water and Solid Waste Funds. The other kind of proprietary fund is an *internal service fund*, an accounting device used to accumulate and allocate costs internally. This type of proprietary fund is not employed by the Town of Belleair.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water, Wastewater and Solid Waste Funds, all of which are considered to be major funds of the town.

The basic proprietary fund financial statements can be found beginning on page twenty-five of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the Town of Belleair's programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found beginning on page thirty of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 32-93 of this report.

Implementation of GASB 74, 77, 78, 80 & 82. The Town adopted GASB Statement No. 74 Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. GASB 74 requires the Town to use the Pension and OPEB standards which were updated subsequent to a review of the effectiveness of the standards - objective was to establish a consistent set of standards for all postemployment benefits, providing more transparent reporting of the liability and more useful information about the liability and costs of benefits. The town is implementing GASB 77, Tax Abatement Disclosures. GASB 77 requires information about revenues that governments forgo to improve understanding of financial position and economic condition, interperiod equity, sources and uses of financial resources, and compliance with finance related legal or contractual requirements. GASB 78, Pensions Provided through Certain Multiple- Employer Pension Plans was also implemented. GASB 78 was issued to address stakeholder concerns about application of Statement 68 to defined benefit pensions provided through federally sponsored or private multiple-employer pension plans(such as Taft-Hartley Plans. GASB 78 addresses requests to revisit existing standards when the concerns are significant and raise new issues. GASB 80, Blending Requirements for Certain Component Units was also implemented. GASB 80 revises the standards of diversity in practice with some component units regarding how certain component units should be presented in the financial statements of the primary government. For example: Primary government and component unit have substantively the same governing body AND a financial benefit/burden relationship exists, or management (below the elected official level) of the primary government has "operational responsibility" for the activities of the component unit. GASB 82, Pension Issues was also implemented. GASB 82

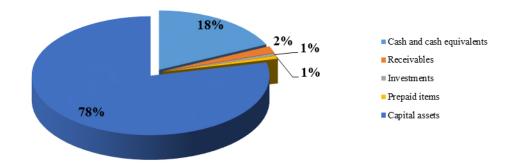

addresses concerns raised by stakeholders during the implementation process of Statements 67 & 68. For example, payments made by an employer to satisfy contribution requirements identified by plan terms as plan member contributions should be classified as plan member contributions for purposes of Statement 67 and as employee contributions for purposes of Statement 68.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the Town of Belleair's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found beginning on page ninety-four of Notes to Financial Statements.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented beginning on page one hundred and one. Combining and individual fund statements and schedules can be found on pages 101-110 of this report.

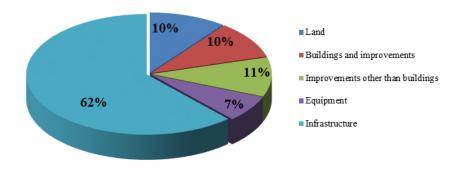

Government-wide Financial Analysis

As noted earlier, the net position may serve over time as a useful indicator of a government's financial position. In the case of Town of Belleair, Florida, net position was \$38,981,115 at the close of the most recent fiscal year.

Government-Wide Assets

Government-Wide Capital Assets

By far the largest portion of the Town of Belleair's assets (78 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment) less any related debt used to acquire those assets that are still outstanding. The town uses these capital assets to provide service to citizens; consequently, these assets are not available for future spending. Although the town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Town of Belleair, Florida's Net Position

An additional portion of the Town of Belleair's net position (thirteen percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of the *unrestricted portion of the net position* is \$3,965,938 and may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the town reports positive balances in all categories of net position.

Governmental activities. Approximately one-third of the town's unrestricted net position (38 percent) are held by governmental activities.

Town of Belleair, Florida's Changes in Net Position Statement of Activities

• The government-wide net position increased by \$1,868,007 at year-end.

• The net position for governmental activities increased by \$1,396,684 during the year.

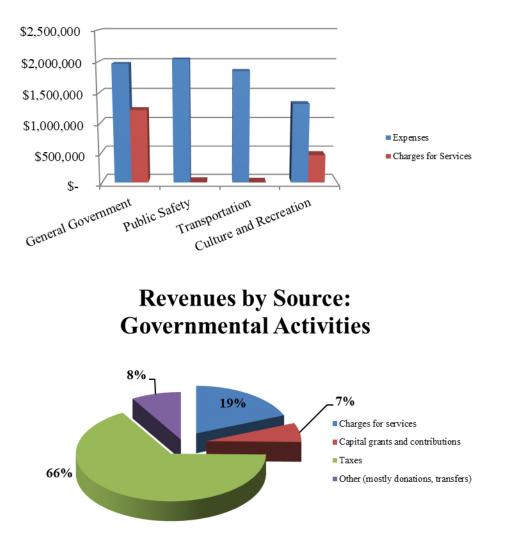

• The Water Fund received updated infrastructure from drainage improvement projects financed by the Capital Projects Fund.

• The net position for business-type activities increased by \$471,323, due to updated infrastructure paid for by the Capital Projects Fund.

• Transfer expenses for governmental activities increased this year substantially as water infrastructure in the Bayview Dr. and Rosery Rd. improvements were recognized as transfer expenses in the Capital Projects Fund and transfer revenues in the Water Fund.

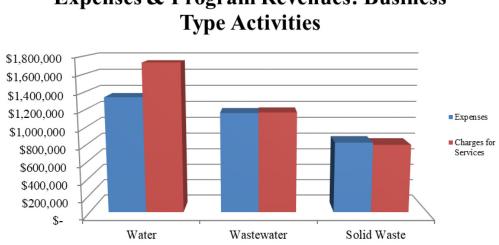

• Increases in governmental activities for Capital grants and contributions reflect grant revenues received from the Southwest Florida Water Management District for the Bayview Dr. Project.

Expenditure & Program Revenues: Governmental Activities

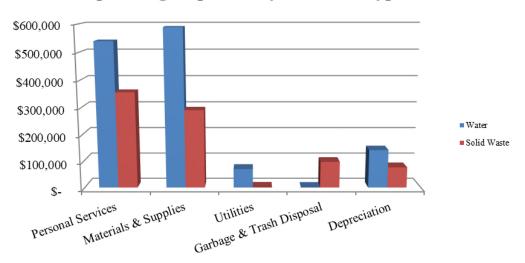

Business-type activities. Business-type activities represent 16 percent of the town's net position. Following the new rate structure implemented in October 2013, as well as an additional rate increase in January 2017 the Water Fund continues to generate sufficient revenue with service charge income exceeding operating expenses by \$389,675. Solid Waste Fund revenues and expenditures decreased due to Hurricane Irma with operating income of \$(25,795). The wastewater system is run by Pinellas County and charges for services are passed through to Pinellas County.

Expenses and Program Revenues - Business-type Activities

Expenses & Program Revenues: Business

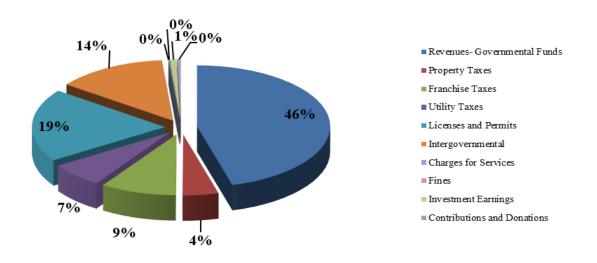

Operating Expenses by Business Type

Financial Analysis of the Government's Funds

As noted earlier, the town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Government funds. The focus of the town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Revenues- Total Governmental Funds

As of the end of the current fiscal year, the Town of Belleair's governmental funds reported combined ending total fund balances of \$7,560,715 an increase of \$2,126,204 in comparison with the prior year. Approximately twenty-seven percent of total fund balance, \$2,039,028, constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of the fund is composed of *assigned* and *restricted* balances. The *assigned* balance is \$88,029, which indicates that the amount is not available for new spending because it has already been assigned to specific purposes such as donations for the Parks and Recreation Department and the Police Department. The *restricted* balance totals to \$5,432,041, which is an amount that is earmarked for explicit purposes specified by external providers and the Town Commission, such as funding for capital improvement projects.

The General Fund is the principal operating fund of the town. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$2,039,028 while total fund balance reached \$2,128,674. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 35 percent of total General Fund expenditures while unrestricted total fund balance represents 37 percent of that same amount. The current fund balance policy requires that the town maintain unrestricted fund balance in the General Fund equivalent to 20% of expenditures. The fund balance of the town's General Fund increased by \$891,668 during the current fiscal year as funds from the dissolution of the Golf Fund were transferred into the General Fund. General Fund expenditures decreased by \$(244,731) as a whole over the previous year.

Capital Projects Fund.

The Capital Projects Fund expended \$3,900,431 on \$2,407,015 of revenue. Prior to 2012, the Town Commission determined that the town would need to save for future projects and develop new sources of income to repair and improve the roads and stormwater structures throughout Belleair. To that end, the commission approved the stormwater fee and municipal public services tax, both of which went into effect in October 2012. The need for immediate improvement prompted the Town Commission to approve borrowing in the form of a \$10 million note, through BB&T, to be repaid over 20 years. Revenue sources such as the stormwater fee, municipal public services tax and the Penny for Pinellas discretionary sales surtax are dedicated to debt service of the loan. Also, the town provided BB&T a covenant to budget and appropriate as assurance of repayment. Additionally, a millage is dedicated to the Capital Projects Fund as a means to save for future projects. The town is currently discussing policies related to the strategic planning of capital projects so as to avoid further debt issuance.

Golf Fund

In the case of the Golf Fund, revenues decreased from \$205,516 in 2015-16 to \$135,301, a decrease of 13%. The Golf Fund was created following the town's purchase of the Belleview Biltmore Golf Club in February 2013. In the following year, the town entered a lease agreement with a third party to provide stewardship of the property, continued recreational and aesthetic benefit, and guaranteed revenues to the Town of Belleair. The property was sold by the Town of Belleair in June 2017 and the fund was closed. At the time of dissolution, the Golf Fund transferred \$3,863,615 to the Capital Projects Fund and \$887,750 to the General Fund.

Special Revenue funds.

The Town of Belleair's special funds include the Local Option Gas Tax Fund, Transportation Impact Fee Fund, Tree Replacement Fund, and Capital Equipment Replacement Fund. The overall fund balance of these funds is \$848,198. The special revenue funds are subject specific, and the expenditures are always used for capital improvement.

Proprietary funds. The Town of Belleair's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted portions of net position of the water, wastewater and Solid Waste Funds at the end of the year amounted to \$2,471,849, an increase of \$567,096 over the prior year. Other factors concerning the finances of these three funds have already been addressed in the discussion of the town's business-type activities. Of particular note, the unrestricted net position for the Water Fund is \$1,255,698, \$805,698 above its policy mandated level of \$450,000.

General Fund Budgetary Highlights

While there was a \$1,493,575 difference between the originally budgeted expenditures and the final amended budgeted expenditures, there were some variances between the final amended budget and the actuals. The revenue variance for the General Fund was \$249,565 (4 percent) higher than budgeted. Expenditures were \$1,271,143 (18 percent) less than budgeted partly due to Hurricane Irma as well as additional reserves fund balance transferred from the Golf Fund to the General Fund. The resulting net variance of change in fund balance was \$1,520,708.

Capital Assets and Long-Term Debt

Capital Assets. The Town of Belleair's investment in capital assets for its governmental and business-type activities as of September 30, 2017, amounts to \$29,809,134. This investment in capital assets includes land, buildings & system, improvements, machinery & equipment, park facilities, roads, highways, seawalls, and bridges. The total decrease over the prior year in the town's investment in capital assets for the current fiscal year was \$(826,960), a \$(731,187) decrease in governmental activities and a \$(95,773) decrease in business-type activities. The decrease was driven by this year's sale of the Belleview Biltmore Golf Club, partially offset by completion of several major capital projects.

Major capital asset events during the current fiscal year included the following:

- Sale of the Belleview Biltmore Golf Club
- Completion of Rosery Rd. roadway and drainage improvement project
- Completion of Bayview Drive roadway and drainage improvement project
- Completion of the Althea Rd. roadway and drainage improvement project

Additional information on the town's capital assets can be found in Note seven on pages 60-62 of this report.

Long-term debt. At the end of the current fiscal year, the town had long-term debt obligations in the forms of a 20-year \$10,000,000 revenue bond with an outstanding liability of \$8,530,000, a five-year \$300,000 equipment loan with an outstanding liability of \$213,853, compensated absences and other post-employment benefits. Sources of income such as the stormwater fee, Penny for Pinellas surtax, municipal public services tax contribute to the repayment of the loan. Annual debt service of approximately \$710,000 will be covered by \$1,140,000 of annual revenue from those three streams. There is also a covenant to budget and appropriate other non Ad Valorem proceeds should there be a revenue shortfall.

The town receives an actuarial valuation of its other post-employment benefits (OPEB) as required under Government Accounting Standards Board (GASB) Statement No. 45 every two years. The current valuation was performed in preparation for the FY 2015-16 CAFR.

Additional information on the town's long-term debt activity can be found in Note ten on pages 64-66 of this report.

Town of Belleair, Florida's Outstanding Debt and Compensated Absences

Economic Factors and Next Year's Budgets and Rates

- Outlook has not changed much from the prior year; local and national economic conditions continue to be showing gradual improvement. Per capita income has increased slightly along with property values.
- The unemployment rate for Pinellas County, Florida for 2017 is 3.8 percent, which was up from 3.7 percent in 2016.
- Inflationary trends in the region compare healthy to the national indices.
- The Belleview Biltmore Hotel property has been sold and rezoned for Planned Mixed Use. The property is expected to be redeveloped as a mixture of condominiums, townhomes, and a boutique hotel. This redevelopment could mean as additional Ad Valorem revenue in excess of \$400,000 once the project is fully completed. Significant building fees should again be collected in the coming year.
- The town sold the Belleview Biltmore Golf Club to Pelican Golf LLC, and the buyer is constructing significant improvements that are expected to have a positive effect on the valuation of the property.
- As chloride levels continue to rise, the town is exploring alternative water source options including Reverse Osmosis, wholesale purchase of water, and sale of the utility.

All of these factors were considered in preparing the Town of Belleair's annual operating and capital budget for the 2017-18 fiscal year.

Request for Information

This financial report is designed to provide a general overview of the Town of Belleair's finances for all those with an interest in such matters. Questions concerning any of the information supplied in this report or requests for additional financial information should be addressed to the town's Support Services Department, 901 Ponce de Leon Boulevard, Town of Belleair, Florida, 33756. The town's web address is http://www.townofbelleair.com.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2017

Amounts reported for governmental activities in the statement of activities are different because:		
Net change in fund balances - total governmental funds	\$	2,126,204
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceed depreciation in the current period.		2,046,527
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	_	(2,776,047)
Changes in net position of governmental activities	\$	1,396,684

NOTES TO

FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies</u>

The Town of Belleair (Town) maintains its accounting records in accordance with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Town's accounting policies are described below:

<u>Reporting Entity</u> - The Town is a political subdivision of the State of Florida, located in Pinellas County in the west central portion of the state. The Town was incorporated in 1925 under the provisions of the Laws of Florida, Chapter 10335 and since that time has operated under the same charter. The Town is approximately 2.5 square miles in area. The Town is a full service municipality providing its citizens with a full complement of municipal services. In addition, the Town owns and operates three utilities including: a water production and distribution system; a wastewater collection and treatment system; and a solid waste removal system.

In evaluating how to define the Town of Belleair, Florida (the primary government), for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No. 14, the Financial Reporting entity.

This governmental accounting standard requires that this financial statement present the Town of Belleair (the primary government) and its component units. Component units generally are legally separate entities for which a primary government is financially accountable. Financial accountability ordinarily involves meeting both of the following criteria: the primary government is accountable for the potential component unit (i.e., the primary government appoints the voting majority of its board) and the primary government is able to impose its will upon the potential component unit, or there is a possibility that the potential component unit may provide specific financial benefits or impose specific financial burdens on the primary government. The Town's police officers' defined benefit pension fund is included in these financial statements as a pension fund.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

<u>Police Officers' Pension Fund</u> - The Town's police officers participate in the police officers' pension plan. The plan was created by the Town Commission under Florida Statutes Chapter 185 to provide pension services solely to the Town, functions for the benefit of these employees and is governed by a five-member pension board. Two police officers, two Town residents and a fifth member elected by the other four members constitute the pension board. The Town and the plan participants are obligated to fund all plan costs based upon actuarial valuations. The Town is authorized to establish benefit levels and the board of pension trustees approves the actuarial assumptions used in the determination of contribution levels.

During the fiscal year ended September 30, 2014 the Town adopted Governmental Accounting Standards Board (GASB) Statement 67, Financial Reporting for Pension Plans which became effective for fiscal year ended September 30 2014 (Note 15). During the fiscal year ended September 30, 2015, the Town adopted (GASB) Statement 68, *Accounting and Financial Reporting for Pensions*. Since separate trust financial statements have not been issued for this police pension plan and are only reported as a fiduciary fund in these statements. All of the disclosures required by GASB 67 have been reported in these statements. Further, the Town has chosen to use September 30, 2016 as the measurement date for GASB 68 reporting purposes. This statement changes the focus of pension accounting for employers from where they are responsibly funding their plan over time to a point-in-time liability that is reflected in the employer's financial statements for any actuarially unfunded portion of pension benefits to date.

The Police Officers' Pension Fund financial statements include solely the account of the plan which include all programs, activities and functions relating to the accumulation and investment of the assets and related income necessary to provide the service, disability and death benefits required under the terms of the plan and the amendments thereto.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

<u>Employees' 401 (K) Fund</u> - The Town's full-time employees not covered under the police officers' pension plan participate in the Employees' 401(K) Plan. The plan is governed by a four-member retirement plan committee. The Town manager, the mayor and two representatives of the Town's finance committee constitute the retirement plan committee. The plan provides that the Town will match the participants' contributions with an employer contribution of nine percent of earnings. The participants are required to contribute at least three percent of their compensation to be eligible for the matching contribution.

Complete custodial statements of the above individual funds can be obtained from: Town of Belleair, finance director's office, 901 Ponce de Leon Boulevard, Belleair, Florida 33756.

<u>Government-Wide and Fund Financial Statements</u> - As discussed more fully in Note 20 the town has adopted the provisions of GASB Statement No. 34, "Basic Financial Statements and Management Discussion and Analysis for State and Local Governments." The government-wide financial statements required under this statement (the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds. Fiduciary funds (i.e. the pension trust fund) are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

<u>Receivables and payables</u> - Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

<u>Deferred Outflows of Resources/Deferred Inflows of Resources</u> - GASB Concept Statement No. 4 "Elements of Financial Statements" introduced two new elements of the financial statements in addition to Assets, Liabilities and Net Assets (changed to Net Position) which are:

Deferred Outflows of Resources - is a consumption of net position by the government that is applicable to a future reporting period.

Deferred Inflows of Resources - is an acquisition of net position by the government that is applicable to a future reporting period.

GASB Statement No. 63 "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position" provides financial reporting guidance for Deferred Outflows of Resources and Deferred Inflows of resources and also identifies Net Position (replacing Net Assets) as the residual of all the elements (Assets, Deferred Outflows of Resources, Liabilities and Deferred Inflows of Resources) presented in a statement of financial position.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

Deferred Outflows of Resources/Deferred Inflows of Resources (Continued)

Government Accounting Standards Board (GASB) Statement No. 65 "Items Previously Reported as Assets and Liabilities" establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities.

The Town has the following items that qualify for reporting in this category:

- A. Pension contributions after measurement date. These contributions are deferred and recognized in the following fiscal year.
- B. Difference in projected and actual earning on pension assets This difference is deferred and amortized over a closed five year period.

All tax, accounts and intergovernmental receivables, are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 180 days comprise the trade accounts receivable allowance for uncollectibles including those for the sewer and solid waste management enterprise funds.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

Complete custodial statements of the above individual funds can be obtained from: Town of Belleair, finance director's office, 901 Ponce de Leon Boulevard, Belleair, Florida 33756.

<u>Government-Wide and Fund Financial Statements</u> - As discussed more fully in Note 20 the town has adopted the provisions of GASB Statement No. 34, "Basic Financial Statements and Management Discussion and Analysis for State and Local Governments." The government-wide financial statements required under this statement (the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds. Fiduciary funds (i.e. the pension trust fund) are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

Since the governmental fund financial statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, a reconciliation is presented on the same page or the page following each statement, which briefly explains the adjustments necessary to reconcile the fund based financial statements to the governmental activities column of the government-wide presentation.

The Town's fiduciary funds are presented in the fund financial statements by type (pension). Since by definition these assets are being held for the benefit of a third-party (pension participants) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

<u>Measurement Focus, Basis of Accounting, and Financial Statement Presentation-</u> The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

Franchise taxes, intergovernmental revenues and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the town.

The Town reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *infrastructure fund* accounts for the capital projects funded by the infrastructure sales surtax.

The *golf fund* accounts for the golf course operations. This fund was closed as of the fiscal year ended September 30 2017.

The Town reports the following major proprietary funds:

<u>Water fund</u> - to account for the assets, operation and maintenance of the town-owned water system.

Wastewater management - to account for operation of the sewer system.

<u>Solid waste management</u> - accounts for the assets, operation and maintenance of the town-owned refuse disposal system.

Additionally, the Town reports the following fund type:

<u>Pension fund</u> - accounts for the activities of the public safety employees' pension plan, which accumulates resources for pension benefit payments to qualified public safety employees.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's water, wastewater and solid waste functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's water, wastewater management and solid waste management enterprise funds are charges to customers for sales and services. The Town also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

Assets, Liabilities, and Net Position or Equity:

<u>Deposits and investments</u> - The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

The Town's investment policy is to maintain funds in investments which yield the highest possible efficiency and return within the limitations established by Florida Statutes, Chapter 166.261. Provisions of those statutes authorize the Town to invest in:

- a) Florida State Board of Administration Local Government Pooled Investment Fund.
- b) Bonds, notes or other obligations of the United States or for which the credit of the United States is pledged for the payment thereof.
- c) Interest-bearing time deposits, savings accounts or collective investment funds in banks or savings and loan associations organized under the laws of the United States.
- d) Obligations of the federal farm credit banks and the Federal Home Loan Mortgage Corporation.
- e) Obligations of the Federal National Mortgage Association and the Government National Mortgage Association.

Investments in fixed income securities are stated at fair value. Fair value is the amount at which an investment could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The Florida State Board of Administration Local Government Pooled Investment Fund has met the criteria to be considered a "2A-7 like" Investment Fund as defined by GASB Statement No. 31. Therefore, amortized cost may be used for valuation. The fair value of the Town's investment in this pool is determined by the pool's share price (account balance).

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

Investments held by the Town's police officers' pension plan are reported at fair value. Short-term investments are reported at amortized cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price. Investments that do not have an established market are reported at estimated fair values.

<u>New Accounting Pronouncements</u> - The GASB has issued the following statement which became effective for fiscal year 2016.

Government Accounting Standards Board (GASB) Statement No. 72, "Fair Value Measurement and Application" requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. Governments should organize these disclosures by type of asset or liability reported in certain entities that calculate net asset value per share (or its equivalent).

<u>Property Taxes</u> - Under Florida law, the assessment of all properties and the collection of all county, municipal and school board property taxes are consolidated in the offices of the county property appraiser and county tax collector.

The tax levy of the town is established by the town commission prior to October 1 of each year and the Pinellas County Property Appraiser incorporates the town's millages into the total tax levy, which includes the Pinellas County School Board tax requirements. The town is permitted by state law to levy taxes up to ten mills of assessed valuation, exclusive of taxes levied for the payment of bonds. The 2017 millage rate assessed by the town was 5.9257.

All property is reassessed according to its fair market value January 1 of each year. Each assessment roll is submitted to the executive director of the state department of revenue for review to determine if the rolls meet all of the appropriate requirements of state statutes.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All tax, accounts and intergovernmental receivables, are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 180 days comprise the trade accounts receivable allowance for uncollectibles including those for the water, wastewater and solidwaste management enterprise funds.

All taxes are due and payable on November 1 of each year or as soon thereafter as the assessment roll is certified and delivered to the tax collector. All unpaid taxes become delinquent on April 1 following the year in which they are assessed. Discounts are allowed for early payment at the rate of 4% in the month of November, 3% in the month of December, 2% in the month of January and 1% in the month of February. The taxes paid in March are without discount.

Delinquent taxes on real property bear interest at 18% per year. On or prior to June 1 following the tax year, certificates are sold for all delinquent taxes on property. After sale, tax certificates bear interest at 18% per year or at any lower rate bid by the buyer. Application for a tax deed on any unredeemed tax certificates may be made by the certificate holder after a period of two years.

Delinquent taxes on personal property bear interest at 18% per year until the tax is satisfied either by seizure and sale of the property or by the five-year statute of limitations.

Because of the Pinellas County Tax Collector's Office efficient system for selling tax certificates and remitting the proceeds to the Town, any delinquent or uncollected property taxes at year end are immaterial. The Town's tax calendar is as follows:

Valuation Date:	January 1
Levy Date:	November 1
Due Date:	March 31, succeeding year
Lien Date:	April 1, succeeding year

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

<u>Franchise Fees</u> - The Town's franchise fees are based on payments to the Town which equal a percentage of the grantees' gross revenues net of any customer credits. The Town's current grantees include the electric and the natural gas utilities.

<u>Capital assets</u> - Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., streets, bridges, seawalls and stormlines), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the date of donation.

Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement should be reported at acquisition value rather than fair value.

During the fiscal year ended September 30, 2003 the Town elected to implement the retroactive addition of infrastructure assets acquired prior to October 1, 2002.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred, if any, during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the primary government, is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	45 - 55
Building improvements	20 - 30
Improvements other than buildings	45 - 55
Machinery and equipment	5 - 15
Infrastructure	45 - 60

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued</u>

<u>Compensated absences</u> - It is the Town's policy to permit employees to accumulate earned but unused vacation and sick pay benefits.

Regular, full-time, permanent employees earn vacation and sick leave starting with the first day of employment.

Vacation leave is earned based on years of continuous and creditable service as follows:

Years	Total
of Service	Days Per Year
1 to 5	10
5 to 15	15
15 years and over	20

A maximum of thirty days vacation leave may be carried over from one year to the next. An employee who has served one year or more and who voluntarily terminates employment with the Town is paid for any unused vacation leave accumulated to the time of termination.

Sick leave is earned at the rate of eight hours for each month of service and shall be cumulative up to a maximum of two hundred forty hours for union employees and four hundred eighty hours for non-union employees. Each year employees have the option of receiving a lump-sum payment for sick leave earned in excess of eighty hours. Upon termination, providing the employee has two continuous years of service and that termination is not a dismissal, the employee is entitled to a lump-sum payment for all accrued unused sick leave.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

Vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it. Amounts of vested or accumulated vacation and sick leave that are not expected to be liquidated with expendable available financial resources are reported in long-term debt. No expenditure is reported for these amounts. Vested or accumulated vacation and sick leave of proprietary funds is recorded as an expense and liability of those funds as the benefits accrue to employees.

All sick and vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

<u>Long-term obligations</u> - In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position.

<u>Fund equity</u> - In the fund financial statements, governmental funds report reservations of fund balances for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

<u>Net position</u> - The government-wide and business-type fund financial statements utilize a net position presentation. Net position is presented in three components - net investment in capital assets, restrict, and unrestricted.

<u>Net Investment in Capital Assets</u> - This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings attributable to the acquisition, construction, or improvement of those assets. This component does not include the position of debt attributable to the unspent proceeds.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

Restricted - This component consists of net position that have constraints placed on them either externally by third-parties (creditors, grantors, contributors, or laws or regulations of other governments) or by law through constitutional provisions or enabling legislation. The government-wide statement of net position reports \$5,206,043 of restricted net position, which is restricted by enabling legislation.

Unrestricted - This component consists of net position that does not meet the definition of "net investment in capital assets" and "restricted".

Nature and Purpose of Classifications of Fund Equity - In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Amounts that are restricted to specific purposes either by

a) constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments or

b) imposed by law through constitutional provisions or enabling legislation are classified as restricted fund balances.

Amounts that can only be used for specific purposes pursuant to constraints imposed by the Commission through a resolution are classified as committed fund balances. Amounts that are constrained by the Town's intent to be used for specific purposes but are not either restricted nor committed are classified as assigned fund balances. Assignments are made by the Town's management based on Commission direction. Non-spendable fund balances include amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Unassigned fund balance represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the governmental funds.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

Fund Balance Policy

The Town hereby establishes and will maintain Fund Balance, as defined herein, in accordance with Governmental Accounting and Financial Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. Fund Balance shall be composed of non-spendable, restricted, committed, assigned and unassigned amounts.

A Fund Balance Policy is adopted in order to secure and maintain investment-grade credit ratings, meet seasonal shortfalls in cash flow, and reduce susceptibility to emergency or unanticipated expenditures and/or revenue shortfalls. Fund balance information is used to identify the available resources to repay long-term debt, reduce property taxes, add new governmental programs, expand existing ones, or enhance the financial position of the Town, in accordance with policies established by the Town Commission.

This Fund Balance Policy establishes:

- a. Fund balance policy for the general fund;
- b. The method of budgeting the amount of estimated unrestricted fund balance (also known as estimated beginning fund balance) available for appropriation during the annual budget adoption process (prior to the actual, audited fund balance being known) and what actions may need to be taken if the actual fund balance is significantly different than the budgeted fund balance; and
- c. Establish the spending order of fund balances.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

NON-SPENDABLE FUND BALANCE

Amounts that are (a) not in spendable form or (b) legally or contractually required to be maintained intact.

RESTRICTED FUND BALANCE

Amounts that can be spent only for specific purposes stipulated by (a) external resource providers such as creditors (by debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

COMMITTED FUND BALANCE

Amounts that can be used only for the specific purposes determined by a formal action (resolution) of the Town Commission, the highest level of decision making authority. Commitments may be changed or lifted only by the Town Commission taking the same formal action (resolution) that imposed the constraint originally. Resources accumulated pursuant to stabilization arrangements sometimes are reported in this category.

ASSIGNED FUND BALANCE

This includes spendable fund balance amounts established by the Town Manager that are intended to be used for specific purposes that are neither considered restricted or committed. Assignments are made by the Town Manager based on Commission direction.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

UNASSIGNED FUND BALANCE

Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed, or assigned for those specific purposes.

MINIMUM LEVEL OF UNASSIGNED FUND BALANCE

If, after the annual audit, prior or committed or assigned fund balance causes the unassigned fund balance to fall below 20% of General Fund operating expenditures, the Manager will so advise the Commission in order for the necessary action to be taken to restore the unassigned fund balance to 20% of General Fund operating expenditures.

The Manager will prepare and submit a plan for Commission for assigned fund balance reduction, expenditure reductions and/or revenue increases to Commission. The Town shall take action necessary to restore the unassigned fund balance to acceptable levels within two years.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

1. <u>Summary of Significant Accounting Policies (Continued)</u>

ASSIGNED FUND BALANCE

The Town policy hereby established the following assigned fund balance reserves in the General Fund:

Assignment to Subsequent Year's Budget - the subsequent year's budget fund balance reserve is assigned by Commission as set forth in the annual budget (and any amendments thereto) to appropriate a portion of existing unassigned fund balance to eliminate a projected deficit in the subsequent year's budget in an amount no greater than the projected excess of expected expenditures over revenues.

<u>Comparative data/reclassifications</u> - Comparative total data for the prior year have been presented only for individual pension funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

<u>Subsequent Events</u> - Management has adopted the provisions set forth in GASB Statement No. 56, *Subsequent Events*, and considered subsequent events through the date of the audit report which is the date that the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

2. <u>Reconciliation of Government-wide and Fund Financial Statements</u>

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes a reconciliation between *fund balance* - *total governmental funds and net position - governmental activities* as reported in the government-wide statement of net position. The detail of this \$25,246,763 difference is as follows:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds.

Governmental capital assets	\$	47,666,493		
Less accumulated depreciation	_	(12,815,294)	-	
			\$	34,851,199
Certain deferred outflows of resources are not available to pay current period expenditures and therefore are not reported in the funds.				
Deferred outflows of resources related to pension plan.				25,382
Long-term liabilities are not due and payable in the current period therefore are not reported in the governmental funds.				
Other post-employment benefits (OPEB)		(118,736)		
Revenue bond		(8,530,000)		
Equipment lease		(213,853)		
Compensated absences	_	(316,813)	-	
				(9,179,402)
Certain liabilities and deferred inflows of resources are not due and payable in the current period and therefore are not reported in the funds.				
Net pension liability		(381,707)		
Deferred inflows of resources related to pension plans	_	(68,709)		(450,416)
Net adjustment to increase fund balance - total Governmental funds to arrive				
at net position - Governmental activities			\$	25,246,763

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

2. <u>Reconciliation of Government-wide and Fund Financial Statements (Continued)</u>

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net changes in fund balances - total governmental funds and changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expenses." The details of this \$2,046,527 difference are as follows

Capital outlay	\$ 3,124,827
Depreciation expense	 (1,078,300)
Net adjustment to increase <i>net changes in fund balances -</i> <i>total governmental funds</i> to arrive at changes in net position of governmental activities	\$ 2,046,527

Another element of that reconciliation states that "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$(2,776,047) difference are as follows:

Principal payment on bond	\$ 390,000
Principal payment on loan	57,785
Proceeds from sale of capital assets	(3,225,499)
Compensated absences	(7,433)
OPEB obligation	-
Pension expense	 9,100
Net adjustment to decrease <i>net changes in fund balances</i> - total governmental funds to arrive at <i>changes in net position</i>	

\$_____

(2,776,047)

of governmental activities

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

3. Stewardship, Compliance, and Accountability

<u>Budgetary information</u> - Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general fund and the enterprise funds and are controlled on a fund and department level. The Town adopts project-length budgets for its infrastructure capital projects fund. All annual appropriations lapse at fiscal year end.

In accordance with the requirements of Section 4.04(c) of the Town's charter, budgetary data for the Town's enterprise funds have been reported in the combining and individual fund section of this report. The Town Manager is authorized to transfer budget amounts within departments; however, any revision that alters the total expenditures of any department or fund must be approved by the Town Commission.

On or before May 31 of each year, all departments of the Town submit requests for appropriation to the Town Manager so that a budget may be prepared. The budget is prepared by fund, function and activity, and includes information on the past year, current year estimates and requested appropriations for the next fiscal year.

The proposed budget is presented to the Town Commission for review before August 1. The Town Commission holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget. Any changes in the budget must be within the revenues and reserves estimated as available by the Town Manager or the revenue estimates must be changed by an affirmative vote of a majority of the Town Commission.

Expenditures may not legally exceed budgeted appropriations at the departmental level. During the year one supplementary appropriation was necessary.

Encumbrances accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

<u>Establishment/Elimination of Funds</u> - No funds were established during the fiscal year ended September 30, 2017. The Golf Fund was eliminated during the fiscal year.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

3. <u>Stewardship, Compliance, and Accountability (Continued</u>

<u>Excess of expenditures (expenses) over revenues</u> - The following funds had an operating deficit for the fiscal year ended September 30, 2017 summarized as follows:

Fund	Operating Deficit
General	\$ (13,242)
Infrastructure	\$ (1,493,416
Solid Waste Management	\$ (25,795)
Local Option Gas Tax	\$ (194,304)

The Town's Board of Commissioners will use the available fund balances in the above funds to cover these deficits.

4. Deposits

At year-end the carrying amount of the Town's deposits was \$8,817,160 and the bank balance was \$8,814,905. The bank balance was covered by federal depository insurance and, for the amount in excess of such federal depository insurance, by the State of Florida's Security for Public Deposits Act. Provisions of the act require that public deposits may only be made at qualified public depositories. The act requires each qualified public depository to deposit with the state treasurer eligible collateral equal to or in excess of the required collateral as determined by the provisions of the act. In the event of a failure by a qualified public depository, losses in excess of federal depository insurance and proceeds from the sale of the securities pledged by the defaulting depository, are assessed against the other qualified public depositories of the same type as the depository in default.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

5. Investments

Investments that are not evidenced by securities that exist in physical or book-entry form include investments in open-ended mutual funds and pools managed by other governments.

	_	Fair Value	Bond Rating	Weighted Average Duration (Years)
Investments not subject to categorization:				
U.S. Government Securities and Agencies	\$	556,870	AA	Daily
Fixed income investment funds		151,268	AA	Daily
Corporate bonds		595,697	AAA	Daily
Domestic Stock		659,779	N/A	N/A
Domestic equity investment funds		980,571	N/A	N/A
International equity investment fund		567,039	N/A	N/A
Temporary investments		191,503	N/A	N/A
Florida State Board of Administration Local				
Government Pooled Investment Fund (SBA)	-	325,183	Not Rated	N/A
Total investments	\$_	4,027,910		

<u>Interest Rate Risk</u> - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment in debt securities. Generally, the longer the time to maturity, the greater the exposure to interest rate risk. The Town manages its exposure to fair value losses arising from increasing interest rates through its adopted investment policies. The Town limits the effective duration of its investment portfolio through the adoption of nationally recognized risk measure bench marks.

<u>Credit Risk</u> - Credit risk is the risk that a debt issuer will not fulfill its obligations. Consistent with chapter 218 of the Florida Statutes the Town's investment guidelines limit its fixed income investments to a quality rating of 'A' or equivalent as rated by one or more recognized bond rating service at the time of purchase. Fixed income investments which are downgraded to 'BAA' or equivalent must be liquidated within a reasonable period of time not to exceed twelve months. Fixed income investments which are downgraded below 'BAA' shall be liquidated immediately.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

5. Investments (Continued)

<u>Custodial Credit Risk</u> - Custodial credit risk is defined as the risk that the Plan may not recover cash and investments held by another party in the event of a financial failure. The Plan requires all securities to be held by a third party custodian in the name of the Plan. Securities transactions between a broker-dealer and the custodian involving the purchase or sale of securities must be made on a "delivery vs. payment" basis to ensure that the custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction. The investments in mutual funds are considered *unclassified* pursuant to the custodial credit risk categories of GASB Statement No. 3, because they are not evidenced by securities that exist in physical or book-entry form.

The Town has adopted a written investment policy in accordance with Florida Statute 218(16). That statute is intended to minimize interest rate, credit and custodial risk by directing the Town to invest only in authorized investments summarized as follows:

- (a) The Local Government Surplus Funds Trust Fund or any Intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in s. 163.01.
- (b) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency.
- (c) Interest-bearing time deposits or savings accounts in qualified public depositories as defined in s. 280.02.
- (d) Direct obligations of the United States Treasury.
- (e) Federal agencies and instrumentalities.
- (f) Securities of, or other interests in, any open-end or closed-end managementtype investment company or investment trust registered under the Investment Company Act of 1940, 15 U.S.C. ss. 80a-1 et seq., as amended from time to time, provided that the portfolio of such investment company or investment trust is limited to obligations of the United States Government or any agency or instrumentality thereof and to repurchase agreements fully collateralized by such United States Government obligations, and provided that such investment company or investment trust takes delivery of such collateral either directly of through an authorized custodian.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

5. Investments (Continued)

The investment in the MBS-FNMA 30 year conventional represents the purchase of a security as a part of an overnight repurchase agreement under a bank sweep account contract. Terms of the master repurchase agreement permit investment only in U.S. government or agency securities. At September 30, 2017 this investment was held by the Town's bank in the Town's name and is recorded in the general fund.

Investments in common stock, U.S. government and agency bonds are assets of the Town's police officers' pension plan and are traded on a national securities exchange and are valued at the last reported sales price on the last business day of the year.

The federated treasury fund is an asset of the Town's police officers' pension plan. The fair value of these investments was determined by the funds' share price as of September 30, 2017.

The State Board of Administration (SBA) was established on June 21, 1928, pursuant to chapter 14486, 1929, Laws of Florida. The SBA was subsequently created as a constitutional body corporate on January 1, 1943, under the provisions of senate joint resolution No. 324, 1941; approved by the electorate in November 1942. The SBA is composed of the Governor, as chairman, the state treasurer, as treasurer, and the state Comptroller, as Secretary, and provides the following services by law: (1) investment of funds of the Florida Retirement System (FRS); (2) administration of debt service funds; (3) investment of trust and agency funds; and (4) distribution of the "second gas tax."

The local government pooled investment fund is governed by ch. 19-7 of the Florida Administrative Code, which identifies the rules of the State Board of Administration. These rules provide guidance and establish the general operating procedures for the administration of the local government pooled investment fund. Additionally, the Office of the Auditor General performs the operational audit of the activities and investments of the State Board of Administration.

Since the Florida State Board of Administration (SBA) local government pooled investment fund typically owns a substantial amount of treasury bills and notes, the fund has utilized security lending programs to generate supplemental income. This income is used to pay a significant portion of the fees associated with the fund which otherwise would have

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

5. Investments (Continued)

to be paid from regular fund earnings. Any residual is used to build the fund's reserve on behalf of participants. Both of these goals have been accomplished without impacting the regular earnings in the fund with no change in the fund's investment strategy. The investment in the Florida SBA pool is carried at the pool's share price at September 30, 2017. The Florida SBA is a 2a-7 like pool.

6. <u>Receivables</u>

Receivables at of September 30, 2017 for the government's individual major funds and nonmajor, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are summarized as follows:

		General		nfra- ructure	Water		N	Waste- Water Ianagement	_	Solid Waste Management	_	Nonmajor and Other Funds		Police Pension	Total
Receivables:															
Taxes	\$	40,295	\$ 1	00,678 \$		-	\$	-	\$	-	\$	- :	\$	- \$	140,973
Accounts		6,995		-	270,02	9		297,042		143,697		-		49,092	766,855
Intergovernmental	_	66,526		65,686		-		-	-	-	_	9,409	_	8,466	150,087
Gross receivables		113,816	1	66,364	270,02	9		297,042		143,697		9,409		57,558	1,057,915
Less: Allowance for uncollectibles	_			<u> </u>	25,00	00	_	15,000	-	10,000	_			<u> </u>	50,000
Net total receivables	\$	113,816	\$ <u>1</u>	66,364 \$	245,02	9	\$	282,042	\$	133,697	\$	9,409	\$	57,558 \$	1,007,915

As the operator of three utilities, (water, wastewater management and solid waste management enterprise funds) the Town grants credit to their customers, substantially all of whom are Town residents.

Revenues of the water, wastewater and solid waste funds are reported net of uncollectible amounts. There were no uncollectible amounts related to revenues that were written off during the fiscal year ended September 30, 2017.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

7. <u>Capital Assets</u>

Capital asset activity for the year ended September 30, 2017 was as follows:

	your	Balance October 1,						Balance September 30,

Business-type activities:					
Accrued leave	\$ 80,780	\$ 42,525 \$	38,166 \$	85,139 \$	21,285

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

10. Long-Term Debt (Continued)

Compensated absences are generally liquidated by the general fund for governmental activities. The general fund has typically been used to liquidate pension liabilities. The general fund, water fund, and solidwaste management fund typically have been used to liquidate other post-employment benefit liabilities.

Capital Improvement Revenue Bond, Series 2012

On September 19, 2012, the Town Commission adopted Resolution 2012-37 to approve the issuance of \$10,000,000 of revenue bonds. The bonds are to finance a portion of the construction of stormwater and roadway improvements and a new municipal services building.

Pledged revenues for these bonds are sales surtax revenues, public service utility tax revenues, and stormwater fee revenues.

BB&T Bond Issuance

Term:	September 21, 2012 through October 1, 2032
Amount issued:	\$10,000,000
Interest rate:	3.61%
Annual Principal Payments:	\$340,000 to \$685,000
Amount outstanding at	
September 30, 2017:	<u>\$ 8,530,000</u>

12. Lease Commitments

The Town currently leases certain equipment under a four and five year noncancellable operating leases. Total lease expense for 2017 was \$4,883. The following is a schedule of future minimum annual lease payments remaining under these leases.

Year	Amount
2018	\$ 1,576
2019	1,576
Total	\$ 3,152

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

13. Risk Management

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. In an effort to reduce the rising costs of commercial insurance, the Town purchases all of its insurance coverages from Public Risk Management of Florida (PRM). The Town does not retain any risk of loss as a member of the PRM program which operates as any commercial insurance carrier.

The PRM program is structured under a protected self-insured retention insurance program with the following retention levels:

· Property	\$200,000
• Liability	\$200,000
· Errors and Omissions	\$200,000
· Workers' Compensation	\$650,000
· Crime	\$ 25,000

This is a "protected self-insurance retention program," not a self-funded program with insurance.

Specific excess insurance provides coverage to losses above the self-insured retention. A loss fund which is funded 100% by the program's members on a pro-rata basis pays the self insured retention amounts.

In the event that the loss fund (\$14,646,382) is exhausted, stop loss insurance is provided. The only deductible payable by members is \$1,000 for property, inland marine, automobile physical damage and crime. In the event of a hurricane a Shared Named Wind Deductible is 3% of total value per Unit involved in the loss. Cyber liability has been recently added to the coverage and the deductible is \$5,000 per loss. Members' contributions are allocated into three categories as follows:

· insurance premiums

· loss fund (paid annually as part of the Town's insurance premium)

 \cdot administrative costs

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

13. <u>Risk Management (Continued)</u>

The excess insurance carriers and their coverage area s are summarized as follows:

Carrier	Coverage
Markel	excess property, general liability & law enforcement
Markel & NY Marine	
& General Insurance Company	excess workers' compensation
Chartis	crime

The PRM program provides specified insurance coverages for 61 governmental entities. The major benefits of such a pooling approach include:

- 1) Broader insurance coverage through mass purchasing power;
- 2) The reduction of insurance costs, with some measure of cost stabilization;
- 3) The availability of insurance from year to year; and
- 4) The development of a loss prevention program common to all members.

As indicated above, the Town continues to carry commercial insurance for employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

14. <u>Contingent Liabilities</u>

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the State of Florida. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the Town expects such amounts, if any, to be immaterial.

The Town is involved in certain ongoing construction projects. Management's estimate of the costs of these projects through the next two fiscal years ending September 30, 2019 is between \$5,500,000 and \$6,500,000. The funding for these projects will come from the countywide one percent infrastructure sales surtax.

The Town did not receive federal grant funds during the fiscal year ended September 30, 2017, and is not, therefore, subject to the program compliance audit by the grantee under the Office of Management and Budget circular A-133, "Audits of States, Local Governments and Non-profit Organizations".

The Town is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Town attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the Town.

The Town has not entered into any operating leases with scheduled rent increases as of September 30, 2017.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

15. Investment Measurement at Fair Value

Fair Value Hierarchy

The accounting standards break down the fair value hierarchy into three levels based on how observable the inputs are that make up the valuation. The most observable inputs are classified as Level 1 where the unobservable inputs are classified as Level 3.

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Town and Police Officers' Pension Fund (Plan) has the ability to access.

As a general rule, any asset that has a daily closing price and is actively traded will be classified as a Level 1 input.

Level 2 inputs are inputs (other than quoted prices included within Level 1) that are observable for the asset or liability, either directly or indirectly. Inputs to the valuation methodology include: (1) quoted market prices for similar assets or liabilities in active markets, (2) quoted prices for identical or similar assets or liabilities in active markets, (3) inputs other than quoted prices that are observable for the asset or liability, and (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

As a general rule, if an asset or liability does not fall into the requirements of a Level 1 or Level 3 input, it would default to Level 2. With Level 2 inputs, there is usually data that can be easily obtained to support the valuation, even though it is not as easily obtained as a Level 1 input would be.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

15. Investment Measurement at Fair Value (Continued)

Fair Value Hierarchy (Continued)

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

As a general rule, Level 3 inputs are those that are difficult to obtain on a regular basis and require verification from an outside party, such as an auditor or an appraisal, to validate the valuation.

Net asset value (NAV) is a common measurement of fair value for Level 1, Level 2, and Level 3 investments. A fund's NAV is simply its assets less its liabilities, and is often reported as a per share amount for fair value measurement purposes. The Town and Plan would multiply the NAV per share owned to arrive at fair value. Level 1 investment in funds such as mutual funds report at a daily NAV per share and are actively traded. NAV also comes in to play for Level 2 and 3 investments. As a matter of convenience (or referred to in accounting literature as a "practical expedient"), a Plan can use the NAV per share for investments in a nongovernmental entity that does not have a readily determined fair value, such as an alternative investment. Investments measured at NAV as a practical expedient would be excluded from the fair value hierarchy because the valuation is not based on actual market inputs but rather is quantified using the fund's reported NAV as a matter of convenience. The Town and Plan have no NAV investments.

The Town and Plan categorizes its fair value measurement within the fair value hierarchy established by generally accepted accounting principles. The Town and Plan have the following total recurring fair value measurements as of September 30, 2017:

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

15. Investment Measurement at Fair Value (Continued)

Fair Value Hierarchy (Continued)

- Debt securities Debt securities classified in Level 1 or Level 2 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used by International Data Pricing and Reference Data, LLC to value securities based on the securities' relationship to benchmark quoted prices.
- *Mutual funds* The rationale for inclusion in Level 1 or Level 2 points to the unobservable inputs involved in mutual fund pricing. Mutual funds do not trade using bid and ask, as with ETF's or common stock. Instead, the prices are determined by the net asset value of the underlying investments at the close of business for the next day's open. The underlying assets themselves may include a variety of Level 1 and Level 2 securities and some may be valued using matrix pricing which interpolates the price of a security based on the price of similar securities.
- *Fixed income funds* Valued using pricing models maximizing the use of observable input for similar securities. This includes basing value on yield currently available on comparable securities of issues with similar credit ratings.
- Equity funds Valued at market prices for similar assets in active markets.
- *Common stock* Valued at quoted market prices for identical assets in active markets.

NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

16. Employee Retirement System

The Town maintains a single employer, defined benefit pension plan (police officers' pension plan) which covers all of its police officers as well as a defined contribution 401(k) plan which covers substantially all of the Town's remaining general employees.

Police Officers' Pension Fund

Plan Description:

The following brief description of the Town of Belleair police officers' retirement plan (plan) is provided for general information purposes only. Participants should refer to the plan ordinance for more complete information.

The plan is a single employer defined benefit pension plan covering all full-time sworn police officers of the Town of Belleair, Florida (Town). Participation in the plan is required as a condition of employment. Originally established by Town ordinance in 1977 and amended in 1986, 1993, 1995, 1997, 2002 and 2007 the plan provides for pension, death and disability benefits. The plan is subject to provisions of chapter 185 of the State of Florida statutes.

Basis of accounting is the method by which revenues and expenses are recognized in the accounts and are reported in the financial statements. The accrual basis of accounting is used for the plan. Under the accrual basis of accounting, revenues are recognized when they are earned and collection is reasonably assured, and expenses are recognized when the liability is incurred. Plan member contributions are recognized in the period in which the contributions are due. Town contributions to the plan, as calculated by the plan's actuary, are recognized as revenue when due and the Town has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

16. <u>Employee Retirement System (Continued)</u>

Police Officers Pension Fund (continued)

Plan Description (continued)

Basis of accounting:

A State excise tax (rebate) collected from the Town's residents by the State of Florida is restricted to fund the plan under Florida Statutes, Chapter 185. This rebate has been included in the general fund's revenues and expenditures for the fiscal year ended September 30, 2017. Contributions are received from the Town in amounts sufficient to fund the plan at an actuarially determined rate specified by state statute, chapter 185. The plan's administrative costs are financed through investment earnings. The plan has no undue investment concentrations.

The plan has not issued a stand-alone financial report for the fiscal year ended September 30, 2017.

The plan, in accordance with the above statute, is governed by a five member pension board. Two police officers who are elected by a majority of the members of the plan, two are residents of the Town who are appointed by the Town Commission and a fifth member elected by the other four members constitute the pension board. The Town and the plan participants are obligated to fund all plan costs based upon actuarial valuations. The Town is authorized to establish benefit levels and the board of trustees approve the actuarial assumptions used in the determination of contribution levels.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

16. <u>Employee Retirement System (Continued)</u>

Police Officers Pension Fund (continued)

Plan Description (continued)

Benefits Provided: The Plan provides retirement, termination, disability and death benefits.

Normal Retirement:

Eligibility: Earlier of age 55 and the completion of 5 years of Credited Service or the completion of 25 years of Credited Service, regardless of age. Benefit Amount: 3.50% of Average Final Compensation times Credited Service.

Early Retirement:

Eligibility: Age 50 and 10 years of Credited Service.

Benefit Amount: Accrued benefit, reduced 3% for each year that benefit commencement precedes normal retirement.

Disability:

Eligibility: Total and permanent disability prior to Normal Retirement Date. 10 years of Creditable Service required for non-service related disability.

Benefit Amount: (Service): Unreduced accrued benefit, but not less than 42% of Average Final Compensation.

Pre-Retirement Death Benefits:

Vested or On-Duty: Member's accrued benefit payable at what would have been the Member's Normal or Early (reduced) retirement date for 10 years. Non-Vested, Off-Duty: Refund of Member contributions.

Vesting (Termination);

Less than 10 years of Credited Service: Refund of Member's contributions. 10 or more years of Credited Service Accrued benefit payable at age 50 or later, on Credited an actuarially reduced basis if to commence prior to Normal Retirement Date, or a refund of member's contributions with interest.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

16. <u>Employee Retirement System (Continued)</u>

Police Officers Pension Fund (continued)

Plan Description (continued)

Contributions:

Employee 6% of salary.

Remaining amounts required in order to pay current costs and amortize unfunded past service cost, if any, as provided in Chapter 112, Florida Statutes.

Net Pension Liability

The measurement date is September 30, 2017. The measurement period for the pension expense was October 1, 2016 to September 30, 2017. The reporting period is October 1, 2016 through September 30, 2017.

The Town's net liability was measured as of September 30, 2017. The total pension liability used to calculate the net pension liability was determined as of that date.

Actuarial Assumptions:

The total pension liability (asset) was determined by an actuarial valuation as of October 1, 2016 updated to September 30, 2017 using the following actuarial assumptions:

Inflation	2.50%
Salary increases	6.50%
Discount rate	7.75%
Investment rate of return	7.75%

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

16. <u>Employee Retirement System (Continued)</u>

Police Officers Pension Fund (continued)

Plan Description (continued)

Mortality Rate Healthy Lives:

Female: RP2000 Generational, 100% Annuitant White Collar, Scale BB. Male: RP2000 Generational, 10% Annuitant White Collar / 90% Annuitant Blue Collar, Scale BB.

Mortality Rate Disabled Lives:

Female: 60% RP2000 Disabled Female set forward two years/ 40% Annuitant White Collar with no setback, no projection scale.

Male: 60% RP2000 Disabled Male setback four years/ 40% Annuitant White Collar with no setback, no projection scale.

The actuarial assumptions used in the October 1, 2016 valuation were based on the results of an actuarial experience study performed October 19th, 2010, for the period 1990-2010.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns; Net of Pension Plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the Long-Term Expected Rate of Return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

16. Employee Retirement System (Continued)

Police Officers Pension Fund (continued)

Plan Description (continued)

Best estimate of arithmetic real rates of return for each major asset class included in the Pension Plan's target asset allocation as of September 30, 2017 are summarized in the following table:

		Long Term Expected
Asset Class	Target Allocations	Real Rate of Return
Domestic Equity	45%	7.5%
International Equity	15%	5.65%
Domestic Fixed Income	35%	2.5%
Global Fixed Income	5%	3.5%
Total	100%	

Discount Rate:

The discount rate used to measure the total pension liability was 7.75 percent.

The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

16. <u>Employee Retirement System (Continued)</u>

Employees' 401(k) fund

The Town provides retirement benefits for all of its full-time employees not covered under the police officers' pension plan through a defined contribution 401(k) plan administered by the ICMA Retirement Corporation as a third party administrator and investment advisor under their prototype profit-sharing plan and trust agreement. At September 30, 2017 there were 42 plan members. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees are eligible to participate after one year of employment. The 401(k) plan requires that participants contribute at least three percent (but not to exceed fourteen percent or the maximum amount allowed by the Internal Revenue Code whichever is greater) of their compensation which, if made, will be matched by a nine percent Town contribution. The Town's contributions for each employee (and interest allocated to the employee's account) are fully vested after three years of continuous service. Town contributions for, and interest forfeited by, employees who leave employment before three years of service are used to reduce the Town's current-period contribution requirement. The 401(k) plan provisions and contribution requirements are established and may be amended by the Town Commission.

The Town's total payroll in fiscal year 2017 was \$3,193,386. The Town's contributions were calculated using the participants' salary amount of \$1,845,989. Both the Town and the covered employees made the required contributions in addition to certain voluntary participant contributions summarized as follows:

р

			Percentage
	C	ontribution	of current
		amount	covered payroll
Required:			
Town	\$	166,139	9.0 %
Employee		55,380	3.0
Voluntary:			
Employee		45,396	
Total contributions	\$	266,915	

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

16. <u>Employee Retirement System (Continued)</u>

Employees' 401(k) Plan (Continued)

During the fiscal year ended September 30, 2001 the 401(k) plan was amended to increase the amount that the Town will contribute to the 401(k) plan from 6% of earnings to 9% of earnings for each plan year starting with the first pay period commencing after October 1, 2001.

The 401(k) plan has not issued a stand alone financial report for the fiscal year ended September 30, 2017.

17. Implementation of New GASB Statements

Government Accounting Standards Board (GASB) Statement No. 71, "Pension Transition for Contributions made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68". The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, "Accounting and Financial Reporting for Pensions". The requirements of GASB 71 are effective in fiscal year 2015. The Town has implemented this standard.

Governmental Accounting Standards Board (GASB) Statement No. 72, "Fair Value Measurement and Application", addresses accounting and financial reporting issues related to fair value measurements. The definition of *fair value* is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement provides guidance for determining a fair value measurement for financial reporting purposes. This statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

17. Implementation of New GASB Statements (Continued)

Fair value is described as an exit price. Fair value measurements assume a transaction takes place in a government's principal market, or a government's most advantageous market in the absence of a principal market. The fair value also should be measured assuming that general market participants would act in their economic best interest. Fair value should not be adjusted for transaction costs. The Town has implemented this standard..

The GASB has issued the following statements which will become effective in future years.

Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions" - This statement changes the focus of accounting for postemployment benefits other than pensions from whether they are responsibility funding benefits over time to a point-in-time liability that is reflected on the employer's financial statements for any actuarially unfunded portion of benefits earned to date. This statement will become effective for the Town in fiscal year 2018.

Statement No. 77, "Tax Abatement Disclosures" - This statement requires governments that enter into tax abatement agreements to provide certain disclosures regarding these commitments.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

18. <u>Deferred Compensation Plan</u>

The Town maintains a deferred compensation plan (plan) under the provisions of section 457 of the Internal Revenue Code, as amended. This law stipulates that all assets and income of the plan must be held in trust for the exclusive benefit of the plan participants and their beneficiaries. The Town's plan is administered by the international city management association retirement corporation and provides the plan participants with the option to invest in thirteen different registered investment funds (mutual funds). Although the Town is the trustee of the plan, the Town has no administrative involvement and performs no investing function for the plan and has not therefore, reported the plan in this financial report.

19. Post-Employment Health Care Benefits

In addition to the pension benefits described in Note 14, the Town provides postretirement health care benefits in accordance with an employment policy adopted for the Town's seven full-time department heads during the year ended September 30, 1993. Under terms of this policy, department heads who retire from the Town on or after attaining age fifty-five with at least twenty-five years of service will receive family medical coverage (medical, dental and hospitalization) until age sixty-five at which time a medicare supplement will be provided until the age of seventy. The Town will pay for this supplemental coverage for the employee and his or her spouse, at the rate in effect at the time of the employee's retirement with the employee paying any increased cost after that date. During the year ended September 30, 2017 the Town had three employee eligible to receive these benefits. These postemployment benefits are financed on a pay-as-you-go basis.

Except for the department heads who qualify for postretirement health care benefits (as previously discussed), the Town provides no funding for any portion of the premiums after retirement. However, the Town recognizes that there is an "implicit subsidy" arising as a result of the blended rate premium since retiree health care costs, on average, are higher than active employee healthcare costs. The plan is not accounted for as a trust fund as an irrevocable trust has not been established to fund the plan. The plan does not issue a separate financial report.

The employer is the sole employer in a plan with fewer than one hundred plan members.

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2017

19. <u>Post-Employment Health Care Benefits (Continued)</u>

Annual OPEB Cost and Net OPEB Obligation

The Town's annual other post-employment benefits (OPEB) cost is calculated based on the annual required contribution (ARC) of the employer, an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and to amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The Town's annual OPEB cost for its plan for the fiscal years ended September 30, 2016 and 2015 is as follows:

	Annual OPEB Cost			EB Cost
		9/30/16	_	9/30/15
Annual required contribution (ARC)	\$	63,772	\$	80,871
Interest on net OPEB obligation		4,748		3,790
Adjustment to ARC		(4,717)	_	(3,765)
Annual OPEB cost		63,803		80,896
Contribution made (pay-as-you-go basis)*		(63,772)	_	(56,935)
Change in net OPEB obligation		31		23,961
Net OPEB obligation, beginning of year		118,705	_	94,744
Net OPEB obligation, end of year	\$	118,736	\$_	118,705

*Funding is provided by the General Fund.

NOTES TO FINANCIAL STATEMENTS

As of		Cost	Cost Contributed	OPE	B Obligations
September 30, 2014	\$	80,890	70.40%	\$	94,744
September 30, 2015		80,896	70.40		118,705
September 30, 2016		63,803	100.00		118,736

The funded status of the plan as of October 1, 2016 and 2015 was as follows:

	 10/01/16	_	10/01/15
Actuarial accrued liability Actuarial value of plan assets	\$ 558,688	\$	766,215
Unfunded actuarial accrued liability	\$ 558,688	\$_	766,215
Funded ratio	<u>0%</u>		<u>0%</u>
Covered payroll	\$ 2,534,483	\$_	2,751,961
Unfunded actuarial accrued liability as a a percentage of covered payroll	22.0%		27.8%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the status of the plan and the annual required contributions of the Town are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits. Since this is the first year of implementation there is no prior year information.

Notes to Schedule

Valuation date

10/01/2016

Actuarially determined contribution rates are calculated as of October 1, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Funding method:	Frozen entry age actuarial cost method.
Amortization method:	Level percentage of pay, closed
Remaining amortization period	: 26 years (as of 10/01/2014).
Inflation:	3% per year.
Mortality rate:	RP-2000 combined healthy - sex distinct. Disabled lives set
	forward five years. Based upon a study of over 650 public
	safety funds, this table reflects a 10% margin for future mortality
	improvements.
Interest rate:	7.75% per year compounded annually, net of investment related expenses.
Retirement age:	Earlier of age 55 with 5 years of credited service or 25 years of
	credited service, regardless of age. Also, any member who has
	reached Normal Retirement is assumed to continue employment
	for one additional year.
Early retirement:	Commencing with the earliest early retirement (Age 50 with 10
	years of credited service), members are assumed to retire with an
	immediate subsidized benefit at the rate of 5% per year.
Disability rate:	See table below. (65% of which are assumed to be regular in-lin
	of duty, 10% catastrophic, and 25% not-in-line of duty).
Termination rate:	See table below.
Salary increases:	6.5% per year until the assumed retirement age. Projected salary
	at retirement is increased 20% to account for final non-regular compensation.
Payroll growth:	Up to 3.0% per year (3.0% for 10/1/15 Valuation).
Asset valuation method:	Each year the prior Actuarial Value of Assets is brought forward
	utilizing the historical geometric four-year average Market
	Value return (net of fees). It is possible that over time this
	technique will produce an insignificant bias above or below
	Market Value of Assets.

NONMAJOR

COMBINING AND INDIVIDUAL FUND

FINANCIAL STATEMENTS

AND SCHEDULES

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to finance particular activities and are created out of receipts of specific taxes or other earmarked revenues. Such funds are authorized by legal, regulatory or administrative action to pay for certain activities with some form of continuing revenues.

<u>Park and Public District Enhancement Fund</u> - to account for the receipt of fees in lieu of the replacement of trees removed from Town property as required by the Town's Land Development Code. All fees collected must be used for landscape planning, tree and other plantings and maintenance of public properties.

Local Option Gas Tax Fund - to account for proceeds from the local option gas tax as levied by the Pinellas County, Florida Board of County Commissioners.

<u>**Transportation Impact Fee Fund</u></u> - to account for proceeds from the transportation impact fee as levied by the Pinellas County, Florida Board of County Commissioners.</u>**

CAPITAL PROJECTS FUND

Capital projects fund is used to account for the acquisition and construction of capital facilities other than those financed by proprietary funds and trust funds.

Capital Equipment Replacement Fund - To account for the planned acquisitior of equipment, tools, and vehicles. The general fund and enterprise funds will transfer the funding for these purchases to the capital equipment replacement fund.

STATISTICAL SECTION

This part of the Town of Belleair, Florida's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Content		Page
Financia	l Trends	111
	These schedules contain trend information to help the reader underestand how the government's financial performance and well-being have changed over time	
Revenue	Capacity	122
	These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	
Debt Cap	pacity	127
	These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the gov ernment's ability to issue debt in the future.	
Demogra	aphic and Economic Information	131
	These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	
Operatin	g Information	133
	These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial repor relates to the services the government provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

COMMENTS ON THE STATISTICAL SECTION

September 30, 2017

The following statistical tables recommended by GASB Statement No. 44 are not included for the reasons stated below:

A table on ratios of outstanding debt by type, ratios of general bonded debt outstanding, and pledged revenue coverage has been omitted because the town has no general obligation or revenue bonded debt.

A table on the computation of legal debt margin has been omitted because the constitution of the State of Florida, Florida Statutes 200.181 and the charter of the Town of Belleair, Florida have no set legal debt margin.

Additional schedules which are felt to be useful to various users, principally investors, underwriters, and rating agencies, have been included in this section.

(1) Florida Statutes provide for a discount of up to four percent for early payment of ad valorem taxes. All unpaid taxes become delinquent on April 1, and are sold at auction on June 1 of each year as tax certificates. The Town, after all tax certificates are sold, has fully collected all ad valorem revenues

(2) Net collected includes penalties or late payments.

⁽³⁾ Florida Statutes provide for a three percent maximum increase in annual taxable property values.

(1) Florida Statutes provide for a discount of up to four percent for early retirement of ad valorem taxes.

All unpaid taxes become delinquent on April 1, and are sold at auction on June 1 of each year as tax certificates.

The Town, after all tax certificates are sold, has fully collected all ad valorem tax revenues.

The Honorable Mayor and Town Commissioners Town of Belleair, Florida

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and the AICPA Professional Standards AT Sections 601.55 and 601.56, the financial statements of the governmental activities, the business-type activities, each major fund, the budgetary comparisons for the general fund and the aggregate remaining fund information of the Town of Belleair, Florida, as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the Town of Belleair, Florida's (Town) basic financial statements, and have issued our report thereon dated September 1, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

The Honorable Mayor and Town Commissioners Town of Belleair, Florida

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

The Honorable Mayor and Town Commission Town of Belleair, Florida

Report on the Financial Statements

We have audited the financial statements of the Town of Belleair, Florida as of and for the fiscal year ended September 30, 2017 and have issued our report thereon dated September 1, 2018.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Controller General of the United States; and Chapter 10.550, Rules of the Auditor General her Reports and Schedule

We have issued our Independent Auditors Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; and Independent Accountant's Report on an examination conducted in accordance with *AICPA Professional Standards*, Section 601, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General Disclosures in those reports and schedule, which are dated September 1, 2018, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., Rules of the Auditor General, require that we determine whether or not corrective actions have been taken to address finding and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial report. There were no findings or recommendations made on internal control and compliance issues during the preceding annual financial audit.

The Honorable Mayor and Town Commission Town of Belleair, Florida

Official Title and Legal Authority

Section 10.554(1)(i)4., Rules of the Auditor General, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. This disclosure has been included in the Town's Comprehensive Annual Financial Report for the fiscal year ended September 30, 2017.

Financial Condition

Sections 10.554(1)(i)5.a. and 10.556(7) Rules of the Auditor General, require that we apply appropriate procedures and report the results of our determination as to whether or not the Town of Belleair, Florida has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Section 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General, we applied financial condition assessment procedures. It is management's responsibility to monitor the Town of Belleair, Florida's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Annual Financial Report

Sections 10.554(1)(i)5.b. and 10.556(7), Rules of the Auditor General, require that we apply appropriate procedures and report the results of our determination as to whether the annual financial report for the Town for the fiscal year ended September 30, 2017, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes, is in agreement with the annual financial audit report for the fiscal year ended September 30, 2017. In connection with our audit, we determined that these two reports were in agreement.

The Honorable Mayor and Town Commission Town of Belleair, Florida

Other Matters

Section 10.554(1)(i)2., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.554(1)(i)3., Rules of the Auditor General, require that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, the Board of Commissioners, and applicable management, and is not intended to be and should not be used by anyone other than those specified parties.

INDEPENDENT ACCOUNTANT'S REPORT

The Honorable Mayor and Town Commission Town of Belleair, Florida

We have examined the Town of Belleair, Florida 's compliance with Section 218.415, Florida Statutes, regarding the investment of public funds during the year ended September 30, 2017. Management is responsible for the Town's compliance with those requirements. Our responsibility is to express an opinion on the Town's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test bases, evidence about the Town's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the Town's compliance with specified requirements.

In our opinion, the Town complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2017.

This report is intended solely for the information and use of the Town and the Auditor General, State of Florida, and is not intended to be and should not be used by anyone other than these specified parties.

September 1, 2018

The Honorable Mayor and Town Commissioners Town of Belleair, Florida

We have audited the basic financial statements of the governmental activities, the business-type activities, each major fund, the budgetary comparisons for the general fund and the aggregate remaining fund information which collectively comprise the basic financial statements of the Town of Belleair, Florida as of and for the year ended September 30, 2017, and have issued our report thereon dated September1, 2018.

We have issued our Report on Compliance and Internal Accounting Controls in Accordance with *Government Auditing Standards* dated September 1, 2018. Disclosures in that report, if any, should be considered in conjunction with this management memorandum.

We conducted our audit in accordance with United States generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

In planning and performing our audit of the financial statements of Town of Belleair, Florida we considered the Town's internal control structure to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit we observed a matter that is an opportunity for strengthening internal control and operating efficiency.

2016-2017

2017-1 New Pronouncements

2015-2016

2016-1 Financial Statement Analysis

2016-2017

A. <u>New Pronouncements</u>

The GASB has issued the following statements:

- 1. Statement No. 74, "Financial Reporting for Postemployment Benefit Plants Other Than Pension Plans." The requirements of this Statement will take effect for financial statements starting with the fiscal year that ends June 30, 2017.
- 2. Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pension Plans." The requirements of this Statement will take effect for financial statements starting with the fiscal year that ends June 30, 2018.
- 3. Statement No. 77, "Tax Abatement Disclosures." The requirements of this Statement will take effect for financial statements starting with the fiscal year that ends December 31, 2016.
- 4. Statement No. 78, "Pension Provided through Certain Multiple Employer Defined Benefit Pension Plans." The requirements of this Statement will take effect for fiscal years that end December 31, 2016.
- 5. Statement No. 80, "Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14." The requirements of this Statement will take effect for financial statements starting with the fiscal year that ends June 30, 2017.
- 6. Statement No. 81, "Irrevocable Split-Interest Agreements." The requirements of this Statement will take effect for financial statements starting with the fiscal year that ends December 31, 2017.

2016-2017

A. <u>New Pronouncements (Continued)</u>

7. Statement No. 82, "Pension Issues—an amendment of GASB Statement No. 67, No. 68, and No. 73." The requirements of this Statement will take effect for financial statements starting with the fiscal year that ends June 30, 2017, except for the requirements of this Statement for the selection of assumptions in a circumstance in which the employer's pension liability is measured as of a date other then the employer's most recent fiscal year-end. In that circumstance, the requirements for the selection of assumptions will take effect for that employer in the first reporting period in which the measurement date of the pension liability is on or after June 15, 2017.

We recommend that both the Finance Director and Assistance Finance Director become familiar with these new standards.

<u>2015-2016</u>

2016 -1 Financial Statement Analysis

Last year we recommended that the Finance Department spend time at year end doing an analysis of the September 30 financial statements.

The analysis should be completed prior to the audit fieldwork. The purpose is to reduce the number of journal entries that are required after the audit process begins.

This recommendation has been implemented.

* * * * * *

This memorandum is intended solely for the use of the Town of Belleair, Florida and the Florida Auditor General and is not intended to be and should not be used by anyone other than those specified parties.

We appreciate the courtesy and assistance provided to us by the Town's personnel during our audit. We will review the status of the above comments during our next audit engagement. We have already discussed many of these comments and suggestions with Town personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.
