Subject:

Update on FOP Negotiations and Pension Cost Scenarios

Summary:

Staff will provide a general update on the status of FOP negotiations

Background/Problem Discussion: Staff has held multiple meetings with the Fraternal Order of Police representative and their attorney to develop a new three-year agreement between the union and the Town of Belleair. Negotiations had been temporarily delayed as the Town awaited actuarial analysis of various scenarios for future pension plan participants, however this past week the town received the analysis requested.

Changes considered include raising the minimum years for eligibility to ten years by removing the 55 and 5 option for new participants. Additionally, reduction of the percentage benefit accrual rate from 3.5% to 2.75% was studied, as well as increase of the member contribution rate from 6% to 10%. Because these changes would affect new members as existing members reach retirement, the Town's annual pension payment savings would be gradually realized over the coming years. Possible savings are listed below.

Other issues to be resolved in this upcoming contract will be a simplification of the calculation for shift differential as well as additional health insurance options for those officers requesting spouse or dependent health insurance coverage.

The Finance Board has not had a chance to review the scenarios, but will at their next regular meeting.

Financial Implications: Staff is reviewing the savings for each pension scenario in comparison to offerings by other departments so that the Town continues to recruit qualified officers while improving the sustainability of future pension costs.
